

### **Statement Declaration:**

*Intel® Wi-Fi 6E AX211, model AX211D2W*  
*Intel® Wi-Fi 6E AX211, model AX211D2WH*

**To whom it may concern,**

This statement letter is to declare that the following products:

- *Intel® Wi-Fi 6E AX211, model AX211D2W*
- *Intel® Wi-Fi 6E AX211, model AX211D2WH*

Are exact same product.

Both models *AX211D2W* and *AX211D2WH* are identical and are exactly the same:

- same board
- same schematics
- same layout
- same BoM

The only difference on the model *AX211D2WH* compared to original model *AX211D2W* is as follow:  
*AX211D2WH* has lower conducted output power settings. Obviously, as for original model: settings are set and locked in the Eeprom secured firmware.
