

Solder Board-Component View 6	 A photograph of a rectangular black electronic component, likely a camera module, resting on a blue textured surface. A black ruler with white markings is placed vertically to the left of the component, showing measurements from 0 to 100 mm. The component has a central lens area and several small circular features on its sides.
Solder Board-Component View 7	 A photograph of a small, circular electronic component, likely a sensor or camera module, resting on a blue textured surface. A black ruler with white markings is placed vertically to the left of the component, showing measurements from 0 to 50 mm. The component has a central square area with a QR code and various small components and solder points.
