PRODUCT PARAMETER

Indoor Use Only

Internet	2.4G WiFi (802.11 b/g/n), Ethernet	
Power	USB Type-C, Powered by PoE	
Radio Frequency	433.92MHz	
Dimension	L75 * W75 * H30 (mm)	

Status Indicator

Color	Meaning	Duration
Constant Blue	Working Fine	Constant
Slow Flashing Red	Network Disconnected	Continuous
Slow Flashing Yellow	Network Connected	Continuous
Quick Flashing Red	Hub Reset	5 Times
Slow Flashing Purple	Pairing Underway	Continuous
Slow Flashing Green	Upgrade in Progress	Continuous

Do not install against oncrete walls or corners. Keep away from electronic appliances.

PRO HUB Quick Start Guide

Model: DD7006

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

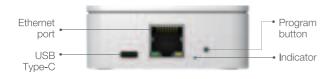

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

PRO HUB SET UP

About this Device

The Pro Hub allows users to link their motorized shades to their Internet connection via WiFi or Ethernet, enabling control via the Connector+ app and other smart home devices.

Step 1 Download APP Scan below QR Code.

Step 2 Pair the Hub

The Connector Hub can be paired directly through an Ethernet cable or wirelessly through your Wifi* signal using the instructions linked in the OR codes.

*If pairing through a WiFi signal, only use 2.4G internet speed.

Step 2 Pair the Hub (QR Codes)

Pair through Ethernet (iOS)

Pair through Ethernet (Android)

Pair through WiFi (iOS)

Step 3 Pair Shades to Hub

Once your hub has been connected, follow directions in the Connector+ app for pairing shades.

Additional App Features

Within the Connector+ app menu, find additional features including information on connecting your hub to smart home devices and a help section offering FAOs, instructional videos, and our feedback submission portal.
