

Magnetic Levitation Keyboard

User Manual

Introduction

- Magnetic installation, convenient operation
- Slim design, easy to carry
- Sensitive touch and instant action
- Wireless connection, no password pairing
- Smart dormancy, one button to wake up
- Actual power, worry free for use

Indicator

Bluetooth indicator: After power on, the bluetooth indicator light will flash rapidly, which the keyboard is in pairing mode. Once the keyboard connected to the tablet, the Bluetooth indicator light will turn off.

Caps Lock Indicator: The indicator flashes when the keyboard is on Capital input status.

Battery indicator: When the keyboard is turned on, this light will stay on.

Charging indicator: When charging with a USB cable, this light will breathe and blink. When the keyboard is fully charged, this light will stay on constantly.

Bluetooth connection

1、When you turn the switch on the right side of the keyboard downwards, the display screen in the middle of the keyboard will light up, which means that the keyboard is power on. At this time, the Bluetooth indicator light will flash rapidly, and the keyboard will automatically enter Bluetooth pairing mode.

3、In the "Settings" menu, click the menu, "Bluetooth"

5、After the Bluetooth connection is successful, the pairing indicator is off, and the device "connected" will be displayed in the Bluetooth device list.

2、Open and unlock the iPad and click the "Settings" icon

4、Turn on the "Bluetooth" switch, and the iPad will automatically search for Bluetooth keyboard devices. Discover the Bluetooth keyboard device: **110MB01** and click it. The keyboard will be automatically connected.

Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference, and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Le matériel a été évalué pour répondre aux exigences générales d'exposition aux radiofréquences. Le dispositif peut être utilisé dans des conditions d'exposition portables illimitées.
