Re: confirmation of FCC Class II change

We Radicom Research Inc. hereby would like to clarify that the difference between Just the product : USB WiFi Module changes with 1.use of the antenna from 2dBi to 5dBi; 2.The RF power from the module is transmitted through the PCB microstrip trace of the host and go to the antenna connector of host. The hardware configurations, PCB layout, circuit designation, out power base of these are exactly the same.

FCC ID : K7T-WIFIHU2S Date: 07/06/2015

Name of Grantee: Radicom Research Inc

Product name: USB WiFi Module

Model No. : WiFiHU2s-c
