FCC ID: 2BGHX-MTPRO
Document: Operational Description
Product: MIDI Tap Pro

Description

The MIDI Tap Pro is a USB to 3 port MIDI UART interface. It is used to connect up to 3 legacy MIDI UART devices to a computer through a USB 1.0 or 2.0 port. The MIDI Tap Pro does not require USB drivers and utilizes standard MIDI drivers for Windows, Linux or Mac. It supports MIDI 1.0 and MIDI 2.0 protocols.

The MIDI Tap Pro has a 240x240 pixel color display to show MIDI activity from the UART's or USB ports. The display has multiple configurations and can be changed through MIDI System Exclusive commands.

Specifications

External Ports
- USB 2.0 type C port
- 3 MIDI UART input ports
- 3 MIDI UART output ports

Power Requirements
- 5VDC @ 100mA from USB port
