

## Find My User Manual

### Add Your iTag

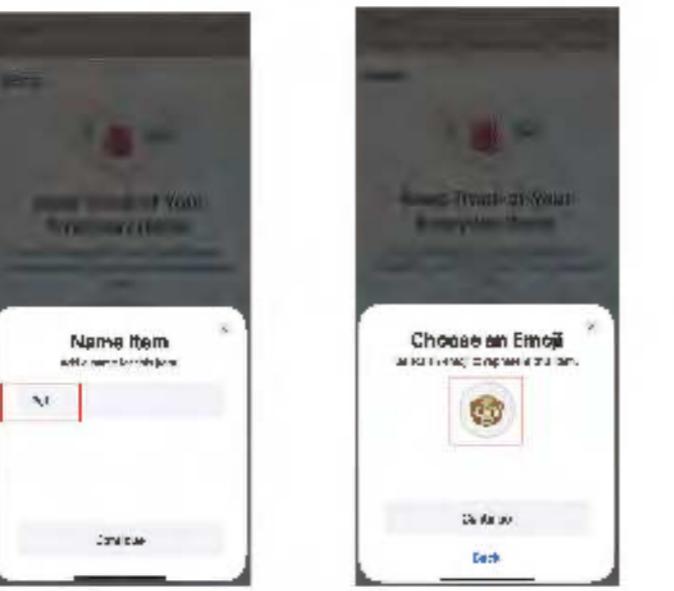

Start the APP: Open Find My™ on your supported iPhone or iPad and allow notifications from the APP.

Connect iTag:

1. Press the button to power on iTag.
2. Select "Items" tab, then tap "Add Item", and next tap "Other supported items".

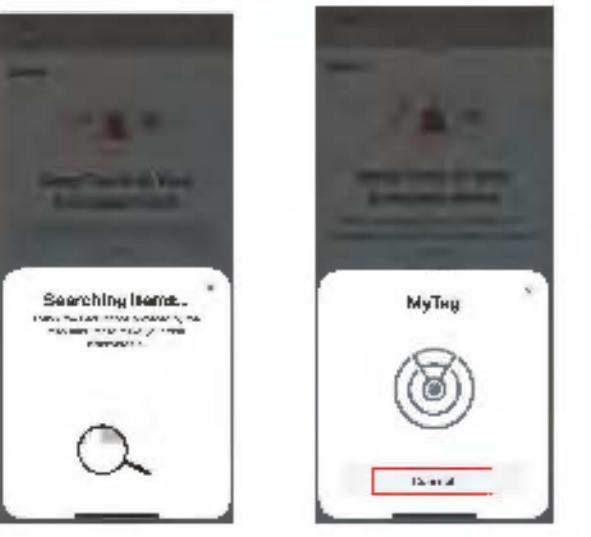

4. Choose a recognizable name and emoji for your iTag and tap "Continue".

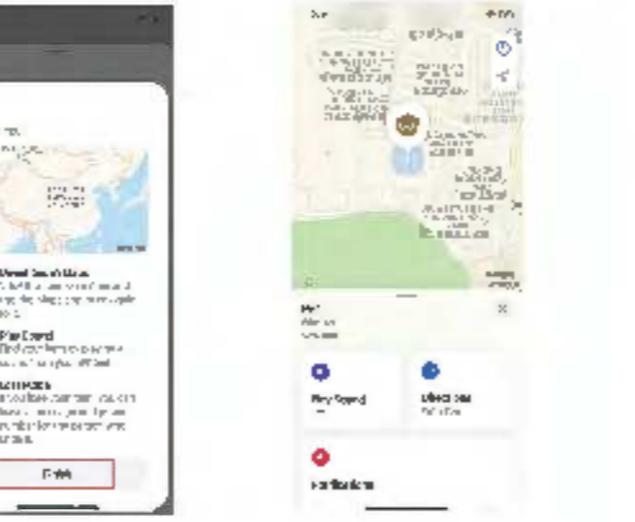

5. Find My™ will ask for confirmation to add iTag to your Apple ID, and tap "Continue".

3. Once iTag is paired, tap "Connect".

6. Tap "Finish" and your iTag will be set up and ready to be attached to whatever tag you wish to locate, e.g. your keys.

### Resetting iTag:

1. Open Find My™ APP and select "Items" tab.
2. Tap on your iTag from the list.
3. Please ensure "Lost Mode" is disabled.
4. Swipe to the bottom of the screen and tap "Remove Item".
5. A summary will open, then tap "Remove" to confirm.

### Factory Reset Your iTag:

1. After successfully removing the iTag from Find My™ app, press the iTag's function button 4 times rapidly and then hold it a fifth time until you hear a ringing chime.
2. The iTag is now reset and ready to be paired to a new iPhone or iPad.

### Locate Your iTag:

- Find iTag when it's Nearby:
  1. Open Find My™ app and select the "Items" tab.
  2. Tap on your iTag from the list.
  3. Tap "Play Sound" to make your iTag beep.
  4. Tap "Stop Sound" to stop the beep once you find it.
- Find iTag's last Known Location:
  1. Open Find My™ app and select the "Items" tab.
  2. Tap on your iTag from the list.
  3. Your iTag's last known location will appear on the map.
  4. To navigate to that last known location, tap "Direction" to open the Apple Maps app.

### Find iTag Out of Range

- Enabling "Notify When Left Behind":
  1. Open Find My™ app and select the "Items" tab.
  2. Tap on your iTag from the list.
  3. Under "Notifications" enable the "Notify When Left Behind" toggle.
  4. You will receive a notification when you leave your iTag behind and it's no longer in range of your device.
- Enabling "Notify When Found":
  1. Under "Notifications" enable the "Notify When Found" toggle.
  2. When your iTag is seen by another Find My™ enabled device, you will receive a notification of its updated location.
  3. Note: "Notify When Found" can only be activated when your iTag is out of range.

### When Your iTag is Lost

#### Enabling "Lost Mode"

1. Open Find My™ app and select the "Items" tab.
2. Tap on your iTag from the list.
3. Under "Lost Mode" enable the "Lost Mode" toggle.

4. You will receive a notification when your iTag is lost.

#### Replacing the Battery

1. Slice the opening edge on the back of your iTag to carefully open the shells.
2. Replace the battery with a new CR2032 battery replacing the positive side up (text facing up).

#### Unwanted Tracking

- If any Find My network accessory separated from its cover, a screen showing with you over time, you'll be notified in one of two ways:

1. If you have an iPhone, iPad or iPod touch, Find My will send a notification to your Apple device. This feature is available on iOS 10 or iPadOS 10.4 or later.
  2. If you don't have an OS device or a smartphone, Find My network accessory that isn't with its owner for a period of time will emit a sound when it's moved.
- These features were created specifically to discourage people from trying to track you without your knowledge.

### The Fine Print

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modification or changes to this equipment. Such modifications or changes not expressly approved by the party responsible for compliance could void the user's authority to operate this device. The device has been evaluated to meet general RF exposure requirement. This device can be used in portable exposure condition without restriction. Federal Communications Commission (FCC) Radiation Exposure Statement: Power is low, so low that no RF exposure calculation is needed.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna; Increase the separation between the equipment and receiver; Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Use of the Works with Apple badge means that a product has been designed to work specifically with the technology identified in the badge and has been certified by the product manufacturer to meet Apple Find My network product specifications and requirements. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards.

## FCC Warning

### 15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

### 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### FCC RF Radiation Exposure Statement:

1. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
2. This equipment complies with RF radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 5mm between the radiator and your body.
