

ONE WORLD ○ OUR APPROVAL

**February 9, 2018**

Name of Company: **Dell Inc.**  
Attention: **Richard Worley**  
Address: **One Dell Way, Round Rock, Tx 78682**  
City/State/PC: **United States**

Dear **Mr. Worley**;

FCC ID: **E2K-DWRFID1602**  
Product Description: **RFID 13.56MHz Wireless Module**

Nemko North America Inc. is an authorized Telecommunication Certification Body (TCB) as per section 2.962 of FCC rules. Our status and scope of accreditation can be verified via the FCC web site at <https://apps.fcc.gov/oetcf/tcb/reports/TCBSearch.cfm>

The above referenced applications have been reviewed by our Certification Body and we have determined the device has met the requirements detailed in the applicable sections of FCC rules and that the application fulfills the technical and administrative requirements related to device certification in place on the above date.

Due to confidential reasons and time to market requirements, you have requested a deferral for the Grants of Authorization for FCC, currently set for **05/15/2018**. The grant for this application will not be issued before this date and subject to the original grant of authorization being issued.

Please be aware that if new rules come into effect following our decision or the materials submitted for this Class 2 Permissive change are affected by the as yet unpublished original grant of authorisation and before the requested deferral date, those requirements will need to be addressed for this device.

We will confirm the grant deferral date a few days before the grant is due to be issued and will require confirmation via email from a Dell contact before we complete the electronic filing with the FCC. Planned maintenance of the FCC site which could affect the ability to grant on the requested date will be communicated immediately.

Sincerely,

A handwritten signature in blue ink, appearing to read "Xu Jin", is positioned above the printed name.

Xu Jin, Senior Technical Assessor

Nemko North America Inc.,
