

FCC Review Person,

1. There were a few changes that needed to be made after the upload:
2. Our client has requested confidentiality after the application was uploaded. Per section 0.457(d)(2) pertaining to confidential material, IP Mobilenet would like the following documents regarding this submission for FCC ID: M17-IPMNIP1 to be kept confidential:

Schematics

The above material contains trade secrets or technical data, which would customarily be guarded from competitors. IP Mobilenet does not want this document to be accessible to the general public. A separate confidentiality letter has been uploaded.

3. The schematics were included in the manual so in order to declare the schematics as confidential the manual was revised by removing the schematics. Please refer to the revised manual.
4. While looking at the schematics it was discovered that the schematics uploaded should have had 14 pages. Page 1 of 14 was missing and the file starts with 2 of 14. A revised schematics file has been uploaded to include all 14 pages.
5. A revised CKC Test Report, FC01-064A was uploaded. Please use the addendum A report instead of FC01-064.

So sorry for the confusion. Hopefully this will help guide you to the correct files to use.

Joyce Walker
