3	Regulatory into: mation
	FCC ID: 2AX7S-LN313B
(1) This device may (with part 15 of the FCC Rules. Operation is subject to the following two conditions: not cause harmful interference, and (2) this device must accept any interference interference that may couse undesired operation.
and manufactured n	e government's requirements for exposure to radio waves. This device is designed of to exceed the emission limits for exposure to radio frequency (RF) energy set by hications Commission of the U.S.
Rate, or SAR. The SA	posure standard employs a unit of measurement known as the Specific Absorption R limit set by the FCC is 1.6 W/kg. Tests for SAR are conducted using standard accepted by the FCC with the EUT transmitting at the specified power level in
different channels. T SAR levels evaluated	The FCC has granted an Equipment Authorization for this device with all reported as in compliance with the FCC RF exposure guidelines. SAR Information on this the FCC and can be found under the Display Grant section of
www.fcc.gov/oet/ea	

- B. Access to the required information on E-label
- 1. Users must be able to access the information in no more than three steps in a device's menu. The actual steps are:
 - (a.) To access the e-label information, in the device, choose:
 Setting > About tablet > Legal information

 No special access codes or permissions are required to go through the above steps, also stated in user manual.
- The information is stored on the device, no special accessories, or supplemental plugins (e.g., a SIM/USIM card) are required to access the information.
 No special accessories or supplemental plugins (e.g., a SIM/USIM card) are required to access the information.
 - 3. Users are provided specific instructions on how to access the information. The information to users is provided in the user manual.
- C. Labeling for Information and Purchasing
- 1. Products utilizing e-labels are required to have a physical label on the product at the time of importation, marketing and sales. For devices imported in bulk and not packaged individually, a removable adhesive label or, for devices in protective bags, a label on the bags is acceptable for this purpose.
 Any removable label shall be of a type intended to survive normal shipping and handling and must only be removed by the customer after purchase. For devices imported already in individual packages ready for sale, the information may alternatively be provided on the package. It shall contain:
- (1). The FCC ID and/or the DoC logo (if applicable)
- (2). Any other information required by specific rule to be provided on the surface of the product unless such information is permitted to be included in the User's manual or other packaging inserts.

D. Other E-l el information

The e-label information is pre-programmed by the responsible party. The user cannot modify the e-label information.

- 1. E-label displays may include regulatory information required to be placed in the User's Manual or on the packaging as required by the rules. The following considerations must be taken into account for such information distribution.
 - (a.) If the primary user manual or user guide is provided by other electronic media (e.g., CD, or online access) then as a potion this information can also be provided as part of the e-label.
 - (b.) The e-label format must clearly differentiate between the information required to be on the surface of the product and the information required for the User's Manual or on the packaging.
 - (c.) Products subject to both certification and Declaration of Conformity or certification and Verification can use the E-label guidance by displaying both the FCC ID and an image of FCC DoC Logo, or FCC ID and product identification as required by the rules.

Please see the e-label sample the exhibit showing the label information include FCC ID/ DoC logo.
