

FCC WARNING:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
 (1) This device may not cause interference.
 (2) This device must accept any interference that may be received, including interference that may cause undesired operation. Any change or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential environment. This equipment generates, uses and can radiate radio frequency energy and, if not properly used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 • Reorient or relocate the receiving antenna.
 • Increase the separation between the equipment and receiver.
 • Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 • Consult the dealer or an experienced radio/TV technician for help.

This device has been designed to meet FCC RF exposure requirements. The device can be used in portable or mobile environments without restriction.

WHEN USING A KEYBOARD:

1. Maintain proper posture and avoid excessive force on the keys.
 2. Use regular breaks to prevent hand fatigue.
 3. Clean the keyboard regularly to remove dust and dirt.
 4. Avoid touching the keyboard by hand.
 5. Keep the keyboard in a suitable environment, free from extreme temperatures or humidity.

Remember these tips for a comfortable and durable keyboard experience.

按FN+ENTER 查看电池电量情况
Pressing FN+ENTER allows you

Pressing FN+ENTER allows you to view the battery level status. Each key from "1" to "0" represents a specific battery level range.

比例:

For example:

 背光亮 表示此时键盘10%的电量

The backlight of the "1" key is illuminated, indicating that the keyboard's current battery level is at 10%.

 背光同时亮，表示此时键盘20%的电量

The "1" and "2" keys are both illuminated, indicating that the keyboard's current battery level is at 20%.

以此类推

11 **00** 背光同时亮, 表示此时键盘电量 100%
When both the "1" and "0" keys are illuminated, it signifies that the keyboard's battery level is at 100%.
