Quick Guide of Using Amazon Echo To Control Smart Devices

1. Add device

1.1. Download 4NBSU-JGF"11

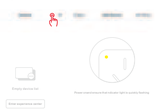
Please scan the QR Code, or get Smart Life downloaded from App Store or Android Market.

1.2. Register an account in 4NBSU-JGF

Open Smart Life/etc account registration page, click on the upper right corner of the "Register" .

1.3. Add devices(for example, Smart Bulb)

After login to Smart Life APP, click on "+" .



- Smart Life APP supports two types of distribution network modes: EZ mode and AP mode. EZ mode is default.
- EZ Mode:The indicator light flashs rapidly.(Two times a second)
- AP Mode: The indicator light flash slowly

- Select the WiFi you are using and input the password,Click "next"to connect the device.

1.4. Rename the device

After the device is added successfully, click the device description text to modify device name. The name of the device is recommended to use easy pronunciation of the English words. (Amazon Echo only supports English temporarily)

Multiple devices can be added and renamed according to the above procedures.

2. Enable 4NBSU-JGBkill in Alexa APP

Choose "Skills" in the options bar, and then search"Smart Life" in the input box.

Select Smart Life in the search results, and then click "Enable Skill".

Then input the user name and password that you had previously registered. Only support the account in the United States.

3. Control Smart Bulb by Voice

After the above operation is successful, you can control the bulb via Echo.

3.1. Discover devices

Firstly, you need to say to Echo:

Echo(or Alexa), discover my devices.

Echo will start to find the devices which is added in Smart Life APP, which will take about 20 seconds, then it will tell you the result.

You can also click "Discover devices" in Alexa APP, then it will show the devices that found successfully.

3.2. Control devices by voice

Attention: The name of the device must be consistent with the addition of Smart Life app.

You can also group the bulbs and give instructions to control them together.

Attention:
Echo is one of the wake-up names, which can be any of these three names(Settings):Alexa,Echo,Amazon

3.3. Support Skill list

You can control devices by instructions like these:

- Alexa(or echo), turn on [bedroom light]
  Alexa(or echo), turn off [bedroom light]
- Alexa(or echo), set [bedroom light] to 50 percent
  Alexa(or echo), increase [bedroom light] to 50 percent
- Alexa(or echo), decrease [bedroom light] to 50 percent
  Alexa(or echo), set [smart heater] to 34
- Alexa(or echo), raise [smart heater] by 4
  Alexa(or echo), lower [smart heater] by 2
