

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and Board
View 1****EUT Housing and Board
View 2**

Solder Board-Component View 1	 A photograph of a small, rectangular printed circuit board (PCB) with a black solder mask. The board is populated with various electronic components, including a large black circular component on the left, a central integrated circuit (IC) labeled 'V133', and several smaller surface-mount components. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the board's length spanning approximately 100 mm.
Solder Board-Component View 2	 A photograph of the same PCB from a different angle, showing the underside or a different side. This view highlights the solder joints and the components on the reverse side, including a large black circular component on the left and a central IC labeled 'V133'. The board is placed on the same blue textured surface next to a black ruler with white markings, showing a length of approximately 100 mm.

Solder Board-Component View 3	 A photograph of a small electronic component, identified as HN-1308BR-GC0308-SNS, mounted on a blue textured surface. The component features a central lens, a small yellow LED, and various markings including 'LED2', 'LED1', and 'M1'. It is positioned next to a black ruler with white markings in millimeters, showing a scale from 0 to 100 mm.
Solder Board-Component View 4	 A photograph of a small electronic component, identified as HN-1308BR-GC0308-SNS, mounted on a blue textured surface. The component features a central lens, a small yellow LED, and various markings including 'LED2', 'LED1', and 'M1'. It is positioned next to a black ruler with white markings in millimeters, showing a scale from 0 to 100 mm.

Solder Board-Component View 5	 A photograph of a small electronic component, likely a camera module, mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's width spanning approximately 10 mm. The component has a gold-colored connector on one side and a lens on the other.
Solder Board-Component View 6	 A photograph of a small electronic component, likely a camera module, mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's width spanning approximately 10 mm. The component has a gold-colored connector on one side and a lens on the other.
