Re: Cover Letter FCC Class II Permissive Change

Applicant: Silicon Laboratories Finland Oy
FCC ID: QOQ-WF111

To whom it may concern,

Silicon Laboratories Finland Oy would like to have your authorization for a Class II Permissive Change for their WLAN module WF111-E with FCC ID: QOQWF111 originally granted on 09/26/2012.

The Class II Permissive change is to allow use of inverted F-antenna with U.F.L connector (serial number 68001638A) with our WLAN module WF111-E.

There are no HW changes other than the addition of the new antenna.

Sincerely,

Monica Roos
