

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT (Electronic Unit) housing. The housing is open, revealing a green printed circuit board (PCB) with various electronic components, including a yellow battery, a black cable, and a black connector. A black ruler is placed horizontally below the housing for scale, showing measurements in millimeters.
Solder Board-Component View 1	 A photograph showing a close-up view of the solder board-component. The board is green and features a large, square, orange-colored component, likely a battery or a large capacitor, and several other electronic components. A black ruler is placed horizontally below the board for scale, showing measurements in millimeters.

Solder Board-Component View 2	 A photograph of a blue printed circuit board (PCB) component, labeled '2', showing its soldered side. The board is rectangular with several large, silver-colored rectangular components (likely heat spreaders or shields) and various electronic components. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows dimensions from 0 to 200 mm.
Solder Board-Component View 3	 A photograph of a blue printed circuit board (PCB) component, labeled '3', showing its soldered side. The board is rectangular with various electronic components, including a large orange component. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows dimensions from 0 to 200 mm.

Solder Board-Component View 4	 A photograph showing the solder side of the antenna module. The module is a green PCB populated with various electronic components, including a large silver heat-shielded component, several integrated circuits, and passive components. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically, with the 0 mm mark at the top.
Antenna View	 A photograph showing the antenna side of the module. The module is a green PCB with various antennas and components. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically, with the 0 mm mark at the top. Red boxes and lines highlight specific components with labels: - WIFI/BT Antenna - GPS Antenna - LTE RX Ant - GSM/WCDMA /LTE Ant.
