Log in to your account using your email and the verification code you received. (If you do not have an account, your email address will be used to register an account automatically the first time you log in.)

3 Add the VCI

Give your car a thorough health check

Add Device

Do not have a CarPal device?

To add a device for the first time, tap **Add Device**.

If you need to add more devices, tap **Mine > VCI Management > Add VCI**.

4 Plug the CarPal into the vehicle's OBD-II port.

Car OBD-II Interface
The vehicle's OBD-II port is usually located under the dashboard.

5 — Turn the ignition to the "ON" position.

LOCK ACC ON START

ENGINE START STOP
The red LED light on the CarPal indicates it is powered on.

6 — Bluetooth Connection

Car OBD-II Interface

Bluetooth

< Add Device

Step 3

Confirm that the LED light on the device is solid green, then tap Next to start Bluetooth searching. When connection is established, the LED light will turn solid blue.
Next
When the LED light is solid green, you can begin the Bluetooth connection. When connection is established, the LED light on the device will turn solid blue, and the VCI will be activated automatically.
7 — Your CarPal is now ready for use.

< Add Device

Activated successfully!

Tap Vehicle Health Check to start the first vehicle health check and get your vehicle's rating.

Update

The installed vehicle-specific software can be seen on the software download page. When a new version is available, an **Update** button will display. Tap the button to update the software.
For firmware updates, tap **Mine > Firmware Update** to update the firmware if a new version is available.

FAQ

Q: What should I do if a communication error occurs?
A: Follow the steps below to identify the problem:
    1. Check if the ignition is ON.
    2. Check if the CarPal is securely plugged into the vehicle's OBD-II port.
    3. Turn the ignition off. Then, turn it on after 10 seconds and continue the operation.
    4. Check if the vehicle's control module is defective.

Q: What special functions does the CarPal support?
A: The CarPal supports 6 special functions， including Oil Reset, Throttle Reset, EPB Reset, BMS Reset, TPMS Reset, and DPF Regeneration.

Q: Do I need to update the firmware before using it for the first time?
A: Yes. Firmware will automatically update to the latest version once the CarPal is connected with your phone via Bluetooth. You can also tap Mine > Firmware Update to update the firmware manually.

Q: Can multiple devices be bound to one TopDon CarPal App account?
A: Yes.
