

OPERATING MANUAL

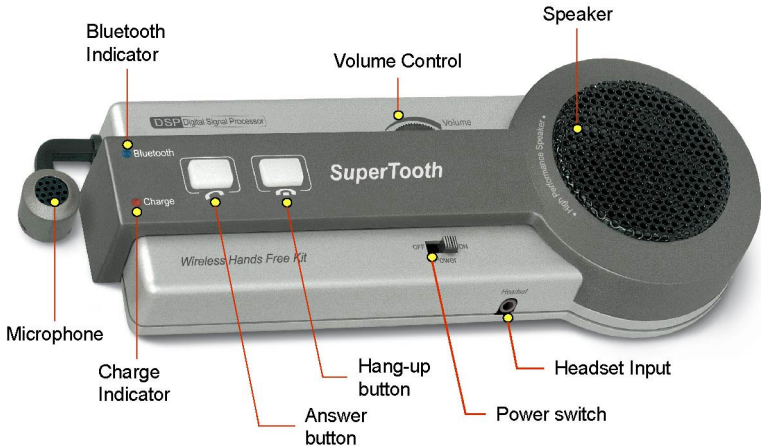

SuperTooth **Independent Handsfree Kit** **with Bluetooth and DSP**

OVERVIEW

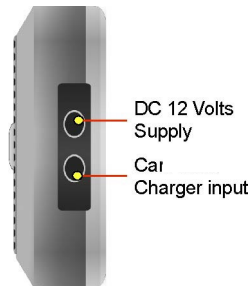

The Supertooth is equipped with Bluetooth and Digital Signal Processor that allows wireless communications on devices such as cellular phones. This is designed to be a totally portable wireless handsfree kit. This also provides convenience to the user by communicating with the hands free. Supertooth will work on any Bluetooth cellular phones available provided that they respect the Bluetooth protocol. However, if your phone is non-Bluetooth phone, SuperDongle is also available as an accessory that you need to attach into your non-Bluetooth phone before using the Supertooth.

A. ILLUSTRATION

Characteristics:

- Full Duplex.
- Frequency : 2.4 GHz
- Built-in noise canceling microphone.
- Internal Digital Signal Processing DSP for noise cancellation and echo suppression.
- Charging time : about 2 hours.
- High power 50mm speaker.
- Size: 150 x 60 x 25mm.
- Weight : 130g

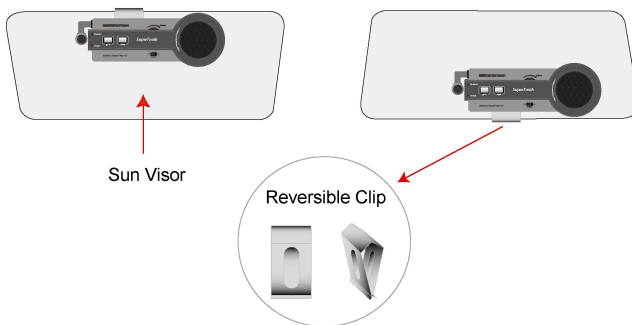

Placement Guide:

The SuperTooth must be placed near your mouth. The sun visor clip is designed reversible to easily transfer the SuperTooth in case you change the position of the sun visor.

(a) Sun Visor up position

(b) Sun Visor down position

B. TURNING ON/ OFF THE SUPERTOOTH

1. To turn the Supertooth ON, slide the switch to the right. The Bluetooth indicator will light blue. The kit is now ready and is waiting for a call (standby mode). (Note: If the charge indicator becomes blinking red, it means that the battery on the kit is low. Re-charge it immediately with the supplied charger. Refer to Section D for the charging operations.)
2. To turn the Supertooth OFF, slide the switch to the left. The indicator light becomes red then turns off after a few seconds.
3. Wait at least 4 seconds before turning the Supertooth ON again.

C. SUPERTOOTH OPERATIONS

Before use, the kit must be paired with the phone. Pairing is done only once. After being paired, the phone and the kit will be automatically connected anytime when the phone is used. (Please see SuperTooth Operations For Popular Cell Phones section on the next page for the instruction).

Important Remarks:

- On some versions of Nokia's software, the kit will not connect automatically to the cell phone. You will need to press the answer button once to connect it to the cell phone.
- If disconnection problem will be encountered on some Nokia cell phones, kindly turn off the keypad tone of your cell phone.

D. CHARGING OPERATIONS

The Supertooth can be charged in a car using the Supertooth Fast charger

1. Connect the charger jack to the charger input of the Supertooth.
2. The red/green charge indicator will alternately blink during charge. The charge indicator turns green when the Supertooth has fully charged and trickle charge will start.
3. Disconnect the charger on the Supertooth.

Note: Charging time will take about 2 hours using the supplied car charger

E. PERMANENT SUPPLY

Connect the 12 Volts car adapter (optional) to the DC 12 Volts input. This input will charge the battery on trickle mode only.

SUPERTOOTH OPERATIONS FOR POPULAR CELL PHONES

Note 1: If your phone is not included on the following list of this manual, kindly refer to the manual of your phone.

Note 2: Softwares and menus could be modified by the cell phone's manufacturers without prior notice. If the manual does not match with your cell phone operations, kindly refer to the manual of your cell phone.

Note 3: **Multi-pairing is now possible.**

Note 1: Handsfree Pairing mode

- From the OFF state, press the answer button for 10 seconds or until the red and blue indicator will alternately blink.

Note 2: Headset Pairing mode

- From the OFF state, press the answer button for 10 seconds or until the red and blue indicator will alternately blink.
- Press the answer button again for a short time to access Headset pairing mode.

USING WITH SONY ERICSSON T68/T68i

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Go the Menu Key by pressing the joystick. Scroll to **Connect**, **YES**. Select **Bluetooth**, **YES**. Select **Options**, **YES**. **Operation mode**, **YES**. **On**, **YES**.
2. Continue pressing **NO**, to exit.

QUICK ACCESS:

Press **Menu** followed by the sequence of numbers below.

	Connect	Bluetooth	Options	Operation mode
T68	8	3	-	2
T68i	8	4 (or 3 for T68i R7)	4	1

b. PAIRING TO THE CELLULAR PHONE (Not possible during charging)

1. Bring the cellular phone at about 20 cm from the Supertooth.
2. Turn off the Supertooth and wait for about 4 seconds.
3. Turn ON the Supertooth while pressing the answer button for 10 seconds or until a distinctive tone will be heard at the same time the red and blue indicator will alternately blink. This indicates that the unit is now ready for pairing.
4. **For T68 and T68i older versions, R6 and below, press the answer button once again for a short time, to access headset pairing mode.**
5. Go the Menu Key by pressing the joystick. Scroll to **Connect**, **YES**. Select **Bluetooth**, **YES**.
6. Select **Paired devices**, **YES**. **Add device**, **YES**. Choose **Phone initiates**, **YES**. Choose **Headset/Handsfree**, **YES**. The phone will then search the device to be added. After the device is found, press **YES**.

QUICK ACCESS (for steps 5 and 6):

Press **Menu** then follow the sequence of numbers below:

	Connect	Blue tooth	Paired devices	Add device	Phone initiates	Headset/ Handsfree
T68	8	3	2	Yes	1	2
T68i	8	4 (or 3 for T68i R7)	2	Yes	1	2

7. Enter "0000" as the passkey. If the pairing is successful, the alternating red/blue lights will stop. Press **YES** to confirm the name of the device. If the pairing is unsuccessful, the steps above may be repeated.
8. Continue pressing **NO** to exit the menu key.

The Supertooth is paired and ready to use. An icon, will appear during the standby mode indicating that the Supertooth is linked with the phone.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Supertooth.

1. Just press the answer button down once to answer the call.
2. If you wish to answer a call on the cellular phone, just press **YES** and the call is automatically transferred to the phone. Pressing the answer button transfers the call on the kit.
3. To terminate the call, press the hang-up button.

d. MAKING A CALL with the Supertooth on

Normal dialing

1. Enter the contact number and press **YES**. Audio can be heard on the Supertooth at the same time, a question will be displayed. *Retrieve call in phone?*, ignoring or pressing **No**, transfers the call to the Supertooth. Pressing **Yes**, transfers the call to the cell phone.
2. Press the hang-up button to hang-up and terminate the call.

Voice dialing

Refer to step h and i for the procedure when activating and recording for voice dialing.

1. Press the answer button once to activate the voice dialing.
2. A beep will then be heard on the Supertooth prompting the user to say the name of the person to call.

- Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
- Press the hang-up button to terminate the call.

Redialing

For T68i R6 and R7, make a long press on the answer button once. Call is automatically transferred on the Supertooth.

e. AUDIO TRANSFER

Audio Transfer can be done by pressing the answer button or accessing the cell phone's menu during ongoing calls.

f. REJECTING A CALL

For T68i R7, press the hang-up button to reject the incoming call.

g. SETTING THE VOLUME

Setting the volume can be done using the volume control.

- Turn it clockwise to increase the volume.
- Decrease the volume by turning it counter-clockwise.

If the volume is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.

h. ACTIVATING THE VOICE DIALING

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on:

Using T68 Sony Ericsson

- Go to the Menu Key by pressing the joystick. Scroll to *Settings*, **YES**. *Voice control*, **YES**.
- Voice settings*, **YES**. *Voice dialing*, **YES**. Select *On*, **YES**.
- Continue pressing **NO** to exit

Using T68i Sony Ericsson

- Go to the Menu Key by pressing the joystick. Scroll to *Settings*, **YES**. *Voice control*, **YES**. *Voice dialing*, **YES**.
- Select *On*, **YES**.
- Continue pressing **NO** to exit

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Settings	Voice control	Voice settings	Voice dialing	On
T68	5	8	1	1	1
T68i	5	6	-	1	1

i. RECORDING FOR VOICE DIALING

Using T68 Sony Ericsson

- Go to the Menu Key by pressing the joystick. Scroll to *Settings* and press **YES**. Choose *Voice control*, **YES**. *Voice Commands*, **YES**. Select a contact, **YES**. *Add voice*, **YES**.
- Follow the instructions in the display. An icon will appear next to a contact name which has a voice command.
- Continue pressing **NO** to exit.

Using T68i Sony Ericsson

- Go to the Menu Key by pressing the joystick. Scroll to *Settings* and press **YES**. Choose *Voice control*, **YES** then go to *Voice dialing*, **YES**. *Edit name*, **YES**. *Add voice*, **YES**.
- Select a contact, **YES**.
- Follow the instructions in the display. An icon will appear next to a contact name which has a voice command.
- Continue pressing **NO** to exit.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Settings	Voice control	Voice commands	Contacts
T68	5	8	2	4

	Settings	Voice control	Voice dialing	Edit names
T68i	5	6	1	2

Note: Record your voice command in a quiet place so that only your voice will be recorded on the phone.

USING WITH SONY ERICSSON T39m

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

- Press the *Menu Key*. Scroll to *Extras* and press **YES**. Select *Operation mode*, **YES**. **On, YES**.
- Continue pressing **NO**, to exit.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Extras	Blue tooth	Operation mode
T39m	5	6	4

b. PAIRING TO THE CELLULAR PHONE (Not possible during charging)

- Bring the cellular phone at about 20 cm from the Supertooth.
- Turn off the Supertooth and wait for about 4 seconds.
- Turn ON the Supertooth while pressing the answer button for 10 seconds or until a distinctive tone will be heard and at the same time the red and blue indicator will alternately blink. This indicates that the unit is now ready for pairing.
- Press the answer button once again for a short time, to access headset pairing mode.**
- Press the *Menu Key*. Scroll to *Extras*, **YES**. Select *Bluetooth*, **YES**. Select *Paired devices*, **YES**. Add device, **YES**. Choose *Phone initiates*, **YES**. Choose *Headset*, **YES**. The phone will then search the device to be added. After the device is found, press **YES**.

QUICK ACCESS (for steps 5 and 6):

Press *Menu* then follow the sequence of numbers below:

	Extras	Blue tooth	Paired devices	Add device	Phone initiates	Headset
T39m	5	6	2	Yes	1	2

- Enter "0000" as the passkey. If the pairing is successful, the alternating red/blue lights will stop. Press **YES** to confirm the name of the device. If the pairing is unsuccessful, the steps above may be repeated.
- Continue pressing **NO** to exit the menu key.

The Supertooth is paired and ready to use.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Supertooth.

- Just press the answer button down once to answer the call.
- If you wish to answer a call on the cellular phone, just press **YES** and the call is automatically transferred to the phone. Pressing the answer button transfers the call on the Supertooth.
- To terminate the call, press the hang-up button.

d. MAKING A CALL with the Supertooth on

▼ Normal dialing

- Enter the contact number and press **YES**. Audio can be heard on the Supertooth at the same time, a question will be displayed. *Retrieve call in phone?*, ignoring or pressing *No*, transfers the call to the Supertooth. Pressing *Yes*, transfers the call to the cell phone.
- Press the hang-up button to hang-up and terminate the call.

▼ Voice dialing

Refer to step g and h for the procedure when activating and recording for voice dialing.

- Press the answer button once to activate the voice dialing.

2. A beep will then be heard on the Supertooth prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the hang-up button to terminate the call.

e. **AUDIO TRANSFER**

Audio Transfer can be done by pressing the answer button or accessing the cell phone's menu during ongoing calls.

f. **SETTING THE VOLUME**

Setting the volume can be done using the volume control.

1. Turn it clockwise to increase the volume.
2. Decrease the volume by turning it counter-clockwise.

If the volume is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.

g. **ACTIVATING THE VOICE DIALING**

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on:

1. Press the *Menu Key*. Scroll to *Settings*, **YES**. *Voice control*, **YES**.
2. *Voice settings*, **YES**. *Voice dialing*, **YES**. Select *On*, **YES**.
3. Continue pressing **NO** to exit

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Settings	Voice control	Voice settings	Voice dialing	On
T39m	4	9	1	1	1

h. **RECORDING FOR VOICE DIALING**

1. Press the *Menu Key*. Scroll to *Settings*, **YES**. *Voice control*, **YES**. *Voice Commands*, **YES**. Select *Contacts*, **YES**. *Add voice*, **YES**.
2. Find a contact name and follow the instructions in the display. An icon will appear next to a contact name which has a voice command.
3. Continue pressing **NO** to exit.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Settings	Voice control	Voice commands	Contacts
T39m	4	9	2	4

Note: Noisy environment may affect voice recognition. Record your voice in a quiet environment.

USING WITH SONY ERICSSON P800 / P900

a. **ACTIVATING THE BLUETOOTH**

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. On the Applications window (flip open mode), scroll and tap *Control Panel* using the stylus. Go to *Connections*. Tap *Bluetooth*. Go to **Settings**. On the *Operation mode*, tap *On*.
2. Tap  to exit and return to the Applications window.

b. **PAIRING TO THE CELLULAR PHONE (Not possible during charging)**

1. Bring the cellular phone at about 20 cm from the Supertooth.
2. Turn off the Supertooth and wait for about 4 seconds.
3. Turn ON the Supertooth while pressing the answer button for 10 seconds or until a distinctive tone will be heard and at the same time the red and blue indicator will alternately blink. This indicates that the unit is now ready for pairing.
4. **Press the answer button once again for a short time, to access headset pairing mode.**
5. On the Phone Applications window (flip open mode), scroll and tap *Control Panel*. Go to *Connections*. Tap *Bluetooth*. Tap the *Devices* index. *Bluetooth devices* is displayed as sub-title. Tap **Add**. The phone is now searching for pairable devices.

6. Tap the device you want to pair with. *Bonding in progress* will be displayed on screen. The phone will then ask for the pass key.
7. Tap  on the lower left corner of the screen. Enter "0000" as the passkey and tap **Done**. Tap **Done** under the sub-title, "Secure Connection." If the pairing is successful, the alternating red/blue lights will stop.
8. Tap  to exit and return to the Applications mode. If the pairing is unsuccessful, the steps above may be repeated.

The Supertooth is paired and ready to use. An icon will appear during the standby mode indicating that the Supertooth is linked with the phone.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Supertooth.

1. Just press the answer button down once to answer the call.
2. If you wish to answer a call on the cellular phone, just press **YES** and the call is automatically transferred to the phone. Pressing the answer button transfers the call on the Supertooth.
3. To terminate the call, press the hang-up button.

d. MAKING A CALL with the Supertooth on

Normal dialing

1. Enter the contact number and press **OK**. Sound is automatically transferred to the Supertooth.
2. Press the hang-up button to hang-up and terminate the call.

Voice dialing

Refer to step g and h for the procedure when activating and recording for voice dialing.

1. Press the answer button once to activate the voice dialing. Sound is automatically transferred to the Supertooth.
2. A beep will then be heard on the Supertooth prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the hang-up button to terminate the call.

e. AUDIO TRANSFER

Audio Transfer can be done by pressing the answer button or accessing the cell phone's menu during ongoing calls.

f. SETTING THE VOLUME

Setting the volume can be done using the volume control.

1. Turn it clockwise to increase the volume.
2. Decrease the volume by turning it counter-clockwise.

If the volume is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.

g. ACTIVATING THE VOICE DIALING

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on:

1. On the Applications window (flip open mode), tap *Phone*.
2. Tap *Edit* then tap *Preferences*. A list of features will appear.
3. Tap *Voice Control* then tap the box aligned to *Voice dialing* to check and activate the voice dialing feature. Tap the box aligned to *Play caller name* to check so that the name will be played back to you.
4. Tap **Done** on the on screen button when finished.
5. On the Preferences mode, tap **Done** again.
6. Tap  to exit and return to the Applications mode.

h. RECORDING FOR VOICE DIALING

The voice dialing feature is only applicable to contacts saved to phone memory.

1. On the Applications window (flip open mode), tap *Contacts*.
2. Tap the contact where you want to add a voice dialing feature. Tap *Edit*. Scroll to **Edit Contact**. Tap  on the on-screen buttons.
3. Tap **Record**. *Speak after tone* will be displayed on the screen.
4. Record your voice. To check if your recording is of good quality, tap **Play**. If not, tap **Record** again. Tap **Done** when finished.

5. Tap  to make another record and repeat the steps above. To return to the Applications window, tap .

Note: Noisy environment may affect voice recognition. Record your voice in a quiet environment.

USING WITH SONY ERICSSON T610

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Go the Menu Key by pressing the joystick. Scroll to *Connectivity*, **SELECT**. Select *Bluetooth*, **SELECT**. Turn On, **SELECT**.
2. Continue pressing  to exit.

b. PAIRING TO THE CELLULAR PHONE (Not possible during charging)

1. Bring the cellular phone at about 20 cm from the Supertooth.
2. Turn off the Supertooth and wait for about 4 seconds.

6. Enter "0000" as the passkey then press OK. If the pairing is successful, the alternating red/blue lights will stop.
7. Continue pressing  to exit the menu key.

The Supertooth is paired and ready to use. An icon, will appear during the standby mode indicating that the Supertooth is linked with the phone.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Supertooth.

1. Just press the answer button down once to answer the call.
2. If you wish to answer a call on the cellular phone, just press **YES** and the call is automatically transferred to the phone. Pressing the answer button transfers the call on the Supertooth.
3. To terminate the call, press the hang-up button.

d. MAKING A CALL with the Supertooth on

Normal dialing

1. Enter the contact number and press **CALL** button. Audio is automatically transferred to the Supertooth.
2. Press the hang-up button to hang-up and terminate the call.

Voice dialing

Refer to step h and i for the procedure when activating and recording for voice dialing.

1. Press the answer button once to activate the voice dialing.
2. A beep will then be heard on the Supertooth prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the hang-up button to terminate the call.

Redialing

Make a long press on the answer button once to redial the last number.

e. AUDIO TRANSFER

Audio Transfer can be done by pressing the answer button or accessing the cell phone's menu during ongoing calls.

f. REJECTING A CALL

Press the hang-up button to reject the incoming call.

g. SETTING THE VOLUME

Setting the volume can be done using the volume control.

1. Turn it clockwise to increase the volume.
2. Decrease the volume by turning it counter-clockwise.

If the volume is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.

h. ACTIVATING THE VOICE DIALING

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on:

1. Go to the Menu Key by pressing the joystick. Scroll to **Settings**, **SELECT**. **Voice control**, **SELECT**. **Voice dialing**, **SELECT**.
2. Choose **On**, **SELECT**.
3. Continue pressing  to exit.

i. RECORDING FOR VOICE DIALING

1. Go to the **Menu Key** by pressing the joystick. Scroll to **Settings** and press **SELECT**. Choose **Voice control**, **SELECT** then go to **Voice dialing**, **SELECT**. **Edit name**, **SELECT**. **New voice**, **ADD**.
2. Find a contact then press **SELECT**.
3. Follow the instructions that are displayed. Voice is automatically saved on the phone. An icon will appear next to a contact name which has a voice command.
4. Continue pressing  to exit.

Note: Noisy environment may affect voice recognition. Record your voice in a quiet environment.

USING WITH SONY ERICSSON T628

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Go the Menu Key by pressing the joystick. Scroll to **Connectivity**, **SELECT**. Select **Bluetooth**, **SELECT**. **Turn On**, **SELECT**.
2. Continue pressing  to exit.

b. SETTING TO LOW POWER MODE

1. Press the **Menu key**. Scroll to **Connectivity**, **SELECT**. **Bluetooth**, **SELECT**.
2. Scroll to **Handfree**, **SELECT**. Choose **Car handsfree**, **SELECT**.
3. Choose **Power Save**, **SELECT**.
4. Continue pressing  to exit.

c. PAIRING TO THE CELLULAR PHONE (Not possible during charging)

1. Bring the cellular phone at about 20 cm from the Supertooth.
2. Turn off the Supertooth and wait for about 4 seconds.
3. Turn ON the Supertooth while pressing the answer button for 10 seconds or until a distinctive tone will be heard at the same time the red and blue indicator will alternately blink.
4. Go the Menu Key by pressing the joystick. Scroll to **Connectivity**, **SELECT**. Select **Bluetooth**, **SELECT**.
5. Scroll to **My devices**, **SELECT**. **New device**, **ADD**. The phone is now searching for pairable devices to be added. Select the device you want to pair with your cell phone. Press **SELECT**.
6. Enter "0000" as the passkey then press OK. If the pairing is successful, the alternating red/blue lights will stop.
7. Continue pressing  to exit the menu key.

The Supertooth is paired and ready to use. An icon, will appear during the standby mode indicating that the Supertooth is linked with the phone.

d. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Supertooth.

1. Just press the answer button down once to answer the call.
2. If you wish to answer a call on the cellular phone, just press **YES** and the call is automatically transferred to the phone. Pressing the answer button transfers the call on the Supertooth.
3. To terminate the call, press the hang-up button.

e. **MAKING A CALL with the Supertooth on**

Normal dialing

1. Enter the contact name and press **CALL** button. Audio is automatically transferred to the Supertooth.
2. Press the hang-up button to hang-up and terminate the call.

Voice dialing

Refer to step h and i for the procedure when activating and recording for voice dialing.

1. Press the answer button once to activate the voice dialing.
2. A beep will then be heard on the Supertooth prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the hang-up button to terminate the call.

f. **AUDIO TRANSFER**

Audio Transfer can be done by pressing the answer button or accessing the cell phone's menu during ongoing calls.

g. **SETTING THE VOLUME**

Setting the volume can be done using the volume control.

1. Turn it clockwise to increase the volume.
2. Decrease the volume by turning it counter-clockwise.

If the volume is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.

h. **ACTIVATING THE VOICE DIALING**

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on:

1. Go to the Menu Key by pressing the joystick. Scroll to *Settings*, **SELECT**. *Voice control*, **SELECT**. *Voice dialing*, **SELECT**.
2. Choose *On*, **SELECT**.
3. Continue pressing to exit.

i. **RECORDING FOR VOICE DIALING**

1. Go to the Menu Key by pressing the joystick. Scroll to *Settings* and press **SELECT**. Choose *Voice control*, **SELECT** then go to *Voice dialing*, **SELECT**. *Edit name*, **SELECT**. *New voice*, **ADD**.
2. Find a contact then press **SELECT**.
3. Follow the instructions that is displayed. Voice is automatically saved on the phone. An icon will appear next to a contact name which has a voice command.
4. Continue pressing to exit.

Note: Noisy environment may affect voice recognition. Record your voice in a quiet environment.

USING WITH SONY ERICSSON Z600

a. **ACTIVATING THE BLUETOOTH**

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press the Menu key Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT**. Choose *Turn ON*, **SELECT**.
2. Continue pressing to exit.

QUICK ACCESS:

- a. Press *More* key.
- b. Scroll to *Turn On Blue tooth*, **SELECT**.
- c. Continue pressing , to exit.

b. **SETTING TO LOW POWER MODE**

1. Press the Menu key Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT**.
2. Scroll to *Handsfree*, **SELECT**. Choose *Car handsfree*, **SELECT**.

3. Choose *Ppower Save*, **SELECT**.
4. Continue pressing  to exit.

c. PAIRING TO THE CELLULAR PHONE (Not possible during charging)

1. Bring the cellular phone at about 20 cm from the Supertooth.
2. Turn off the Supertooth and wait for about 4 seconds.
3. Turn ON the Supertooth while pressing the answer button for 10 seconds or until a distinctive tone will be heard and at the same time the red and blue indicator will alternately blink. This indicates that the unit is now ready for pairing.
4. Press the *Menu* key . Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT**.
5. Scroll to *My Devices*, **SELECT**. *New Device*, **ADD**. The phone will then search the device to be added. After the device is found, press **SELECT**.
6. Enter "0000" as the passkey and press **OK**. If the pairing is successful, the alternating red/blue lights will stop. If the pairing is unsuccessful, the steps above may be repeated.
7. Continue pressing  to exit the menu key.

The unit is now ready to link calls from the phone directly to the Supertooth. An icon, will appear during the standby mode indicating that the Supertooth is linked with the phone.

d. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Supertooth.

1. Just press the answer button down once to answer the call.
2. If you wish to answer a call on the cellular phone, just press **YES** and the call is automatically transferred to the phone. To transfer the call to the Supertooth, press the *Menu* key. Scroll to *Transfer Sound* and press **SELECT**. Choose the paired device and press **SELECT**.
3. To terminate the call, press the hang-up button.

e. MAKING A CALL with the Supertooth on

Normal dialing

1. Enter the contact number and send. Audio can be heard on the Supertooth simultaneously.
2. Press the hang-up button to hang-up and terminate the call.

Voice dialing

Refer to step h and i for the procedure when activating and recording for voice dialing.

1. Press the answer button once to activate the voice dialing.
2. A beep will then be heard on the Supertooth prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the hang-up button to terminate the call.

f. AUDIO TRANSFER

Audio Transfer can be done by pressing the answer button or accessing the cell phone's menu during ongoing calls.

g. SETTING THE VOLUME

Setting the volume can be done using the volume control.

1. Turn it clockwise to increase the volume.
2. Decrease the volume by turning it counter-clockwise.

If the volume is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.

h. ACTIVATING THE VOICE DIALING

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the voice dialing function and record your voice. To turn voice dialing on:

1. Press the *Menu* key . Scroll to *Settings*, **SELECT**. Scroll to *Voice control*, **SELECT**. *Voice dialing*, **SELECT**.
2. Choose *On*, **SELECT**.
3. Continue pressing  to exit.

i. RECORDING FOR VOICE DIALING

1. Press the *Menu* key . Scroll to *Settings* and press **SELECT**. Choose *Voice controls*, **SELECT** then go to *Voice dialing*, **SELECT**. Scroll to *Edit name*, **SELECT**. *New voice*, **ADD**.
2. Select a contact and press **SELECT**.

- Follow the instructions in the display. An icon will appear opposite a contact's name which has a voice command.
- Continue pressing  to exit.

Note: Record your voice command in a quiet place so that only your voice will be recorded on the phone.

USING WITH NOKIA 6310/6310i

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

- Press the *Menu* button. Scroll to *Bluetooth*, **SELECT**. Press **SELECT** again.
- Choose *On*, **SELECT**. An icon will appear on the upper left corner.
- Press *Back* then *Exit* to exit the *Menu*.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Bluetooth	Select	On	Select
6310	10	1	1	1
6310i	11	1	1	1

b. PAIRING TO THE CELLULAR PHONE (Not possible during charging)

- Bring the cellular phone at about 20 cm from the Supertooth.
- Turn off the Supertooth and wait for about 4 seconds.
- Turn ON the Supertooth while pressing the answer button for 10 seconds or until a distinctive tone will be heard at the same time the red and blue indicator will alternately blink.
- Press the *Menu* button. Scroll to *Bluetooth*, **SELECT**. Scroll to *Search for audio accessories*, **SELECT**. The phone is now scanning for Bluetooth devices. **SELECT** the device. The phone will initiate connection with the Supertooth.

QUICK ACCESS (for step 5):

Press *Menu* followed by the sequence of numbers below.

	Blue tooth	Search for audio accessories
6310	10	2
6310i	11	2

- Enter "0000" as the passcode then press **OK**. The phone is now connected with the Supertooth.
- Press *Back* then *Exit* to exit the *Menu*.

The Supertooth is paired and ready to use. An icon will be displayed during the standby mode indicating that the Supertooth is linked with the phone.

Note: Once paired, the Supertooth and the phone have simultaneous connection with each other (keypad tones can be heard on the Supertooth every time the keypad is pressed).

c. AUTO ACCEPT MODE

The auto accept mode allows the Bluetooth function to be turned on automatically whenever the user starts sending information such as answering or making a call via the Supertooth.

- Press the *Menu* button. Scroll to *Bluetooth*, **SELECT**. Scroll to *View paired devices*, **SELECT**.
- Select the Supertooth and press **OPTIONS**. Scroll to *Request conn. authorisation*, **SELECT**. *No*, **SELECT**.
- Continue pressing *Back* button to exit the *Menu*.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Blue tooth	View paired devices	Select
6310	10	4	Options
6310i	11	4	Options

d. **ANSWERING/RECEIVING A CALL**

When the phone is receiving a call, a ring tone will be heard on the Supertooth as well as on the phone.

1. Press the answer button down once to answer the call.
2. End the call by pressing the hang-up button.

Note: Cell phone buttons can also be used to answer a call but audio is still transferred to the Supertooth.

e. **MAKING A CALL with the Supertooth on**

Normal dialing

1. Enter the contact number and send. As you dial, audio and the keypad tones can be heard on the Supertooth simultaneously but not on the phone.
2. Press the hang-up button to hang-up and terminate the call.

Note: If the call is terminated using the cellular phone, no tone will be heard on the Supertooth indicating that the call has been terminated.

Voice dialing

Refer to step i for the procedure when activating and recording for voice dialing.

1. Press the answer button once to activate the voice dialing.
2. A beep will then be heard on the Supertooth prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the hang-up button to terminate the call.

Redialing

Make a long press on the answer button once to redial the last number.

f. **AUDIO TRANSFER**

Audio Transfer can be done by pressing the answer button or accessing the cell phone's menu during ongoing calls.

g. **REJECTING A CALL**

Press the hang-up button to reject the incoming call.

h. **SETTING THE VOLUME**

Setting the volume can be done using the volume control.

1. Turn it clockwise to increase the volume.
2. Decrease the volume by turning it counter-clockwise.

If the volume is too high, it can cause feedback (whistling sound), echo or background noise during calls.

i. **RECORDING FOR VOICE DIALING**

Use your phone when recording voice dialing.

1. Press the *Names* button. *Search*, **SELECT**. Press *List* button.
2. Find a contact name. Press *Details* button.
3. Press *Options* button. *Add voice tag*, **SELECT**. Instructions appear. Your voice is automatically saved on the phone after being played back to you.
4. In case you wish to change your recorded voice, press *Options* button. *Voice tags*, **SELECT**. *Change*, **SELECT**. Instructions appear.
5. Continue pressing *Back* button to exit.

Note: Record your voice command in a quiet place so that only your voice will be recorded on the phone.

USING WITH NOKIA 8910

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press **Menu**. Scroll to **Bluetooth**, **SELECT**. Press **SELECT** again.
2. Choose **On**, **SELECT**. An icon will appear on the upper left corner.
3. Press **Back** then **Exit** to exit the **Menu**.

QUICK ACCESS:

2. End the call by pressing the hang-up button.

Note: Cell phone buttons can also be used to answer a call but audio is still transferred to the Supertooth.

e. MAKING A CALL with the Supertooth on**Normal dialing**

1. Enter the contact number and send. As you dial, audio and the keypad tones can be heard on the Supertooth simultaneously but not on the phone.
2. Press the hang-up button to hang-up and terminate the call.

Note: If the call is terminated using the cellular phone, a tone will be heard on the Supertooth indicating that the call has been terminated.

**Voice dialing**

Refer to step i for the procedure when recording for voice dialing.

1. Press the answer button once to activate the voice dialing.
2. A tone will then be heard on the Supertooth prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cellular phone does not recognize the name spoken, the steps above may be repeated.
4. Press the hang-up button to terminate the call.

**Redialing**

Make a long press on the answer button once to redial the last number.

f. AUDIO TRANSFER

Audio Transfer can be done by pressing the answer button or accessing the cell phone's menu during ongoing calls.

g. REJECTING A CALL

Press the hang-up button to reject the incoming call.

h. SETTING THE VOLUME

Setting the volume can be done using the volume control.

1. Turn it clockwise to increase the volume.
2. Decrease the volume by turning it counter-clockwise.

If the volume is too high, it can cause feedback (whistling sound), echo or background noise during calls.

i. RECORDING FOR VOICE DIALING

Use your phone when recording voice dialing.

1. Press the *Names* button. *Search*, **SELECT**.
2. Find a contact. Press *Details* button.
