

3 in1 Fast Wireless Charger User Manual

Notice: To ensure charging 3 devices safely and efficiently, please use 3V/2A adapter and fast charge cable, if including 15W fast charging phones, please use 9V/2A adapter and fast charge cable (if not use the appropriate adapter and fast charge cable, the charger may no charge phone fast, or may not charge 3 devices simultaneously, or may even damage the charger).

This 3-in-1 wireless charger, a compact charging stand, powered from only one outlet, can charge 3 devices simultaneously. For charging your mobile phone and apple watches, just put them on, all this will make your desk clean and tidy, and make your life easier. The charger is a space-saving designed that can help you integrate your mobile phone intelligent life very well, especially for Apple product users. Besides, it is fashion that the light ring is so shining and has breathing effect showing the charging state, if you want to turn off or turn on the light, just touch the touch-sensitive key.

The diagram illustrates the correct and incorrect ways to hold the device. On the left, a side view of the device is shown with numbered callouts: 1 points to the top handle, 2 points to the front edge, 3 points to the front edge, 4 points to the front edge, 5 points to the front edge, and 6 points to the front edge. On the right, a top-down view of the device is shown with a red 'X' over the hand position, indicating an incorrect grip.

- ① Watch area
- ② Wireless charge area for Phone
- ③ Earphone Charging Area
- ④ Touch-sensitive key
- ⑤ LED Intelligent light ring
- ⑥ Non-slip mat
- ⑦ Cool vent
- ⑧ Type-C port
- ⑨ Fold spindle
- ⑩ Non-slip mat

1. Connect the charger to a 9V/2A adapter through a type-c fast charge cable to switch on the power;
2. Put your phone on the charger;
3. Put the Apple watch on and suck it up to charge (roll the watchband to minimize to charge better);
4. Place the earphone box in the wireless charging area to charge.

Google: Pixel 7a,Pixel 7 Fold,Pixel 7,Pixel 7 Pro,Pixel 6,Pixel 6,Pixel 5.

Including other devices with wireless charging receiver built-in;
Note: (All devices must meet the Qi standard).

3.AirPods:

Apple: AirPods 2, AirPods Pro, AirPods 3

The device does not comply with part 15.5 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with the limits for a Class B digital device, pursuant to part 15.5 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential environment.

The device uses one of the following methods to reduce the radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. To reduce the risk of causing harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Move the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment must be used only in accordance with the instructions and any other operating conditions, where a person is no closer than 20 centimeters from the device surface at all times, except for non-repetitive patterns with transient time intervals of no more than 10 seconds. The equipment is shown to be fully compliant with the FCC RF Exposure requirements of 47CFR 97.407.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation Science and Economic Development Canada's licence-exempt RSSI. Opération de cet appareil nécessite une licence d'émission de radiofréquences. This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation Science and Economic Development Canada's licence-exempt RSSI. Opération de cet appareil nécessite une licence d'émission de radiofréquences.

(2) This device may be subject to the following two conditions:

(a) This device may not cause any interference, including interference that may cause undesired operation of the device. Radiation Exposure: This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment. This equipment does not exceed Canadian radio frequency exposure limits.

(b) This device must accept any interference, including interference that may cause undesired operation of the device. Radiation Exposure: This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment. This equipment does not exceed Canadian radio frequency exposure limits.

This equipment should be installed and operated with minimum distance 20 cm between the radiator body. This device and its accessories must not be located or operated in conjunction with any other antenna or transmitter.

Declaration de l'ISEED Canada:

Cet appareil contient des émetteur(s)/récepteur(s) sans licence / conformes à l'Innovation/RSI exempt(s) de licence de l'Innovation Science et Développement économique Canada/L'opération est sous réserve des deux conditions suivantes:

(1) cet appareil ne peut pas causer d'interférences et

(2) cet appareil doit accepter toute interférence, y compris peut provoquer le fonctionnement indésirable de l'appareil.

Radiation Exposure: Cet équipement est conforme aux limites d'exposition de radiofréquences établies pour un environnement non contrôlé. Cet équipement ne dépasse pas les limites d'exposition de radiofréquences établies au Canada.

un environnement incontrôlé noncé d'exposition RF. Pour maintenir le respect des guides d'exposition R F d'IC, équipement doit être installé et actionné avec une distance minimale de 10cm le radiateur de votre corps. Cet appareil et ses antennes ne doivent pas être colocalisé ou en opération en conjonction avec toute autre antenne ou émetteur.

1. Please keep the charger away from water or other liquid;
2. If you need to clean the charger, please make sure it is not connected power supply;
3. Using environment temperature remains 0—45°C.
4. Please use the adapter included in the package for better charging
5. Please use a mobile phone case with a thickness of less than 4MM.
6. If you use an iPhone 12 Pro Max/13 Pro Max series mobile phone, Please do not use a mobile phone case thicker than 2MM to achieve the best charging effect.

1. If you're experiencing interrupted or slow charging, check the following:
 - (1) The back of your phone should not have any metal pop sockets, or credit cards.
 - (2) Put the phone in the center of the charging surface (This lets the charging coil in your phone line up with the one inside the wireless charger).
 - (3) The wireless charging coil on Sony phones is located slightly below center.

(4) Phone cases should be no thicker than 4 mm for effective charging

(5) Check whether the adapter is QC3.0 fast charger.

2.If you're failing to charge your device, please try out the following:

- (1) Please restart your cell phone and test with other USB cable.
- (2) Please check whether the indicator turns on or not.
- (3) Please check the Adapter is QC3.0 Quick Charger (Output:9V/2A) or not, iPhone original adapter does not match the wireless charger.
- (4) Please check whether your Phone case thickness<=4mm). Metalting or Magnetic Pad will not be available.

3.If you're using the recommended wireless charger with the QC3.0 Adapter and have removed any potential charging obstructions, but are still experiencing issues, try:

- (1) Replacing the cable connecting your wireless charger
- (2) Rebooting your phone.
- (3) Unplug the adapter and reinsert.

If your problem hasn't been solved by following the above steps, please reach out to us via Amazon's message center or info@waitlist.com. In order to solve it for you faster, please have the following information at hand: your phone's model, the type of wall charger you are using, and the type of phone case you are using (with a link if possible). Optionally, you may include a video to illustrate the problem you are meeting.
