RE: Ambit Microsystems Corp.

FCC ID: MCLT60H424

I have a few additional corrections. Please refer to my original comments of April 27.

- 1.) See item #6. There are eight points within DA 00-1407 which need to be addressed. Your response to me in the file named "Dear Bill.doc" addresses only four of these concerns. Please review.
- 2.) See item #7 I can see no prohibition for co-location anywhere in the Manual. If I have missed it, my apologies. Please indicate where in the manual I may find it.
- 3.) See item #11. Was this equipment tested in three orthogonal planes as required by ANSI C63.4?

William H. Graff
President and Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
