AN04T4068, Notice#4

Question #1: Please provide a plot of the 26dB bandwidth to show bandedge
compliance.
Ans #1: Plese refer to the attached for 26dB bandwidth test plots.

Question #2: There is no reading for spurious emissions. Based on ANSI
C63.4: 2001 10.1.8.2, the frequency and amplitude of the three highest
harmonic or spurious emissions relative to the limit, and the frequency and
amplitude of the three highest restricted band emissions relative to the
limit shall be reported. Please provide radiated emission testing data.

7/21/2004

Ans #2: Plese refer to the attached for spurious emissions test plots.

Best Regards,
Mike

The items indicated above must be submitted before processing can continue
on the above referenced application. Failure to provide the requested
information within 30 days of the original e-mail date may result in
application dismissal and forfeiture of the filing fee. Also, please note
that partial responses increase processing time and should not be submitted.
Any questions about the content of this correspondence should be directed to
the e-mail address listed below the name of the sender.
