Bluetooth Profile	HFP 1.2, HSP 1.2, AVRCP 1.4, A2DP 1.2
Audio Codec	APTX
Maximum Working Range	33 feet (10m)
Working Time	Up to 8 hours
Charging Time	1~2 hours
Weight	0.53 oz / 15.0g

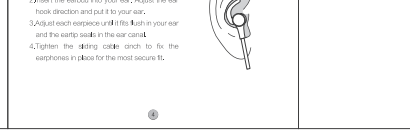

Get Comfortable

Fit to your ear

The ear tips and ear hooks are in different sizes, two of which are equipped on the headset. Please choose the right size of ear tips and ear hooks to find the most secure and comfortable option for you.

Wearing the headset

- 1) Identify the right and left earpieces.
- 2) Insert the headset into your ear. Adjust the ear hook direction and pull it to your ear.
- 3) Adjust each earpiece until it fits both your ear and the earpads in the ear canal.
- 4) Tighten the sliding cable switch to fit the earphones in place for the most secure fit.

Pairing

To pair the Bluetooth headset with your device, you must first bring it into pairing mode.

- 1) Press and hold the Multifunction button nearby, and make sure the headset and your Bluetooth device are close together (within 3 feet).
- 2) Starting with the headset turned off, Press and hold the multifunction button for approximately 8 seconds until the LED indicator flashes red and blue alternately with a voice prompt: "Pairing" (you will hear the voice prompt "power on", first, just keep holding the multifunction button, how the headset is pairing mode).
- 3) Activate the Bluetooth function on your device and search for the nearby Bluetooth connection.
- 4) "Symphonized Hybrid" should be listed in the search result. Select the name to connect.

Note:

- 1) A PIN code is required for pairing, please try "0000" or "8888" (4 zeros or 4 eight).
- 2) If you want to pair the headset with another device, you need to first turn off your headset, and then press and hold the Multifunction button for 8 seconds. The LED indicator will then flash red and blue alternately. After that you can pair with your device by following the "Pairing" instructions.
- 3) The headset will stay in pairing mode for 5 min at most if no pairing device is found. Afterwards, it will power off automatically.
- 4) The Symphonized Hybrid Bluetooth will switch to standby mode if pairing device is switched off or Bluetooth is disconnected for 5 minutes. Afterwards, it will power off automatically.
- 5) Maximum operating range for the Bluetooth headset is 33ft(10m). If you move out of range, the headset will lose connection. You will need to move back within range and reconnect to your Bluetooth audio device.

Usage environment

Working temperature: -5 ~ 45 °C.
Storage temperature: -20 ~ 70 °C.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
