Declaration of differences Aegex10 and Inari10 variant models

Hereby,

Aegex Technologies LLC declare the following variants models:

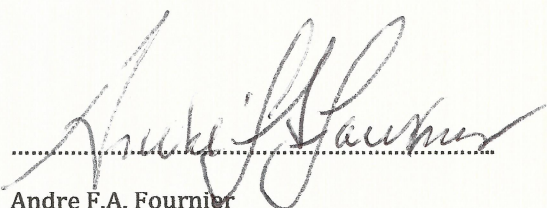

AEGEX10-LTB01 and AEGEX10-WLA01 are electrically identical except for the LTE related parts (FPC's, antennas, antenna cables and Huawei LTE module ME936 as such). FCC ID: 2AGVY-AEGEX10-LTB01 (for model Aegex10 with Huawei LTE module ME936 embedded), and FCC ID: 2AGVY-AEGEX10-WLA01 (for model Aegex10 with WiFi).

The additional design changes between the basic AEGEX10-xxxx and the Inari10-xxx are:

- Resistors were added to some of the signal traces to prevent energy surge
- FET-s were added to some of the power lines to protect against energy surge or short circuit.
- A protective case was added to provide better protection against drops
- Silicone compound was used to encapsulate some of the circuits on the PCB.

If you have any questions, please do not hesitate to contact me.

Sincerely Yours
