Perifericos del producto:

Verdadero: Inalámbrico: BT5.0

Período de garantía: 12000H

Tipo de batería: 2 pilas AA (no incluidas)

Voltaje de funcionamiento: 3,0V

Corriente de funcionamiento: < 8mA

Distancia de trabajo: < 10m

Requerimientos del sistema:

Sistemas compatibles: Windows 2000, 2003, XP, Vista, Win7, Win8, Win8.1, Win10, MAC, Linux

Nota: La rueda de scroll sólo funciona en los sistemas operativos mencionados anteriormente. Si usa el mouse en un sistema operativo diferente, el mouse puede no funcionar o perder sus características avanzadas.

Emparejamiento Bluetooth:

- Abra la tapa de la batería. Inserte las baterías en el compartimento, asegurándose de que correspondan con la marca de polaridad. Vuelva a colocar la tapa de la batería.
- Active el modo Bluetooth ajustando el interruptor situado debajo del mouse.
- Presione el botón de emparejamiento durante 2-3 segundos y el interruptor LED parpadeará. Una vez establecido el emparejamiento, el dispositivo detectará el mouse y, a continuación, baje el ratón. "Emparejado". El emparejamiento tardará unos segundos. Si el dispositivo muestra "Conectado" ya tiene éxito.
- El mouse está equipado con un indicador de baja potencia. Cuando se encienda la lámpara de ahorro automática el LED, el consumo de energía de la batería disminuirá progresivamente. Sustitúyalo si lo necesita.

Nota:

Al cambiar a 800DPI, el indicador LED parpadeará una vez. Al cambiar a 1200DPI, el indicador LED parpadeará dos veces. Al cambiar a 1600DPI, el indicador LED parpadeará 3 veces. Al cambiar a 2000DPI, el indicador LED parpadeará 4 veces. Al cambiar a 2400DPI, el indicador LED parpadeará 5 veces. Al cambiar a 3200DPI, el indicador LED parpadeará 6 veces.

| 動作電圧: 3.0V |

FCC Statement:

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try correct the interference by one or more of the following measures:

- **Reorient the receiving antenna.**
- **Increase the separation between the equipment and receiver.**
- **Connect the equipment into and outlet on a circuit different from that to which the receiver is connected.**
- **Consult the dealer or an experienced radio/TV technician for help.**

Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.
