**Double E**

# USER MANUAL

Fit for Model No.E527 series.

### 1 Main parameters

Material: plastic and electronic components
Batteries: Car battery: 4.8V AA rechargeable battery;
Remote controller battery: 2 pcs of 1.5V AA batteries.

Turn On/OFF
Horn Key
DEMO Key
Siren Key
Left Trigger
Right Trigger
Scaling Ladder Up & Down
Left/Right Rotation
Pumper Key
Indicator

### 2 Battery Installation

1. Open the cover of battery case locates in the back of controller, inserts 2 pcs of 1.5V AA batteries into the battery case, and then screw the cover (Fig 2A).
2. Please screw out the cover at the back of car by screwdriver, open the cover as the arrow showed, insert 1pcs of 4.8 V AA battery, then screw the cover (Fig 2B).

### 4 2.4G Auto Coding

1. After installing the batteries on the car and the remote controller, turn on the power of both. There is a sound of DI from the car, and the indicator on the remote controller and the lights on the car would be flashing slowly. That means the car is in a state of coding, the auto-coding would be successful if the car with DI-DI sound.
2. Each remote controller could be only coded with one car. There is no any interference if auto-coding is success.
3. It could be re-auto-coded with other car or remote controller by turning off the power of both.

### 5 Basic Operation & Functions

1.Turn ON/OFF
● Press the ON/OFF key, there will be a start-up sound; to press the key again after starting. (Fig5A)

2.Horn Key
● To press the Horn Key on remote controller after starting the car, the car would emit a simulated sound.

3.Forward/Backward
● To push the Left Handle forward/backward, the car would go forward/backward. (Fig 5B)

4.Turn Left/Right
● To push the Left Handle forward/backward, Right Handle turns left/right, the car would turn left/right. (Fig 5C).

660 degree Rotation

Fig 5D

—2—

5. 660 degree Rotation of Operation Station
● After starting the car, to press the Left/Right Rotation, the Operation station would do a motion of left/right rotation with sound. At the same, the alarm light on the top of the cab would flash and the lights of front and back would light on(Fig 5D).

6.Up&Down, In&Out of Scaling Ladder
● After starting the car, to press the key of Up& Down of Scaling Ladder, the scaling ladder of the fire truck would raise up (come down) slowly; at the same time, the second condole would hand over(draw back) slowly with a series of mechanical sound, flashing lights at the top of cab, lighting up of the front and back lights(Fig 5E).

7.Siren
● After starting the fire truck, press the Siren Key, the fire truck would emit a sound for alarming. At the same time, the light at the top of cab would flash up. To press the key again, it could be switched to the sound of stand-by.

8.Simulated Pumper Function
● Press the spray button in the remoter, the sprinkler head sprays water, when loosen the spray button, the sprinkler head stops spraying water (on the condition that there is water in the water tank)

**These functions could be multiple used for simulating operation.**

### 7 Recharging

Notice: Please push the power switch to "OFF" position if the product will not be used for a long time. Take the batteries out of the remote controller and the truck for storing. Please charge the battery for 4 to 5 hours, 8 hours for initial use.

### 8 Notice

1. Don't play the toy on the road, select a safe place for operating to avoid dangerous.
2. Plays the toy in water may cause short-circuit damage. Please use the dry cloth to clean the car.
3. If abnormal speed or reaction, it may be because of insufficient battery power, please charge the battery.
4. The batteries should be charged under adult supervision. Please use the batteries recommended.
5. Please install the battery in a correct polarity.
6. Do not mix new and old batteries together, short-circuited.
7. Please charge the battery before initial use.
8. Please check the plug, case and other units of charger regularly to make sure that it is not broken. Don't use again if you find abnormality of the charger.
9. Please do not connect the product to different performance power.

CHOKING HAZARD-small parts, not for children under 3 years.
Specifications colors and contents may vary from illustrations.
CAUTION : Please do not aim at eyes or face when spraying water.

Frequency bands : 2405MH to 2475MHz
Maximum output power : -10.01dBm (for EU compliance)

Manufacturer : Doubleeagle Industry (China) Limited.
Address : Xingda Industrial Park, Chenghai
         District, Shantou City, Guangdong Province, China.
Importer : JAMARA e.k.
Address : Inh. Manuel Natterer
