Equipment Authorization Division
Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

FCC ID: N7N-MC5725 to support filing FCC ID: QWV-BTX600A

IC: 4420A-BTX600A

Product Name: IP4600 EvDO A and GPS5600 EvDO A

We at BlueTree Wireless Data have provided FCC ID: N7N-MC5725 for Sierra Module MC5725 PCIe to support filing FCC ID: QWV-BTX600A. The Sierra Module MC5725 PCIe is embedded in the BlueTree Wireless Data IP4600 EvDO A and GPS5600 EvDO A Modem. No changes are being made to the product as originally certified under FCC ID: N7N-MC5725. The IP4600 EvDO A and GPS5600 EvDO A Modem are smart rugged wireless modem built to provide simple and reliable communications over the cellular CDMA (EvDO) data network. BlueTree Wireless's modems are designed to operate on cellular data networks worldwide enabling M2M applications in the Public Safety, Fleet Management, Field Service Automation, SCADA and Telemetry markets.
