

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a handheld electronic device. On the left is the grey plastic housing, and on the right is the green printed circuit board (PCB). The PCB features a yellow battery, various electronic components, and a USB port. A black ruler with white markings is placed below the components for scale.
Solder Board-Component View 1	 A close-up photograph of a green printed circuit board (PCB) component. The board is populated with various electronic components, including resistors, capacitors, and integrated circuits. A black ruler with white markings is placed below the component for scale.

Solder Board-Component View 4	 A photograph of a small green printed circuit board (PCB) component, labeled 'REV: A' and 'AZ-RB-N64-002A', positioned on a blue textured surface. The component is oriented vertically. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters. The ruler has markings from 0 to 100 mm, with major markings every 10 mm and minor markings every 1 mm. The component is located between the 40 mm and 60 mm marks on the ruler.
Solder Board-Component View 5	 A photograph of a small green printed circuit board (PCB) component, labeled 'REV: A' and 'AZ-RB-N64-002A', positioned on a blue textured surface. The component is oriented horizontally. A black ruler with white markings is placed vertically to the left of the component, showing measurements in millimeters. The ruler has markings from 0 to 100 mm, with major markings every 10 mm and minor markings every 1 mm. The component is located between the 40 mm and 60 mm marks on the ruler.
