Columbia, Maryland 21046

Gentlemen:

The attached documentation is provided in support of a formal submission to your organization for FCC certification of an intentional unlicensed transmitter. On behalf of our client, Compatible Electronics, Inc. has included an application for a Grant of Equipment Authorization pursuant to Subpart C of part 15 of FCC Rules (47 CFR) regarding intentional radiators. The data within the test report demonstrates the equipment was tested in a manner described under Part 2 and 15 of the Code of Federal Regulations.

We are requesting a Limited Modular Approval (LMA) on the Intel Mini PCI Type 802.11 BG Wireless LAN Adapter Model: WM3B2915ABG for portable purposes to cover the Hewlett Packard platform PP3006. SAR testing has been performed on the EUT.

The Series PP3006 also has a Bluetooth Module inside of that is approved under the FCC-ID: LNQBTM200. The test report enclosed is used for all current HP which include the PP3006.

If you have any questions or need any additional information, please give me a call at (714) 579-0500.

Sincerely,

Kyle Fujimoto  
Test Engineer
