**FCC Information**

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device complies with Part 15 of the FCC Rules, which operate under the following two conditions:

(1) This device may not cause interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause interference to radio reception.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or a qualified radio/television technician for help.

**IC Statement**

This device complies with IC RSS-2 radio frequency exposure limits set forth for an uncontrolled environment. This device complies with IC RSS-2 (radio frequency) receivers that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device must not cause interference, and (2) This device must accept any interference that may cause undesired operation of the device.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to IC RSS-2 RF exposure, users can obtain Canadian information on RF exposure and compliance.

Any change or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Cet équipement est conforme aux limites d'exposition aux radiations IC CNR-102 établies pour un environnement non contrôlé.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Science et Développement économique Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes :

(1) L'appareil ne doit pas produire de brouillage,

(2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Le dispositif respecte l'exemption des limites courantes d'évaluation dans la section 2.5 des RSS 102 et la conformité à l'exposition de RSS-102 if, utilisateurs peut obtenir l'information canadienne sur l'exposition et la conformité.

Tout changement ou modification non expressément approuvé par la partie responsable de la conformité peut annuler l'autorisation de l'utilisateur d'exploiter l'équipement.

**WARNING/DISPOSAL OF UNIT**

Dispose of this unit in a safe manner. Doing so will void the warranty and could cause injury and damage to your device. To dispose of the unit, follow the instructions below:

- Never dispose of used batteries/electronics with ordinary solid waste, since they contain toxic substances. Always recycle them at a battery/electronics recycling center or the prevailing community regulations.
- Many electronics retailers now recycle batteries and other electronic components at no charge.

**GENERAL WARNINGS**

- Never use or charge a battery if it appears to be leaking, discolored, deformed, or in any way abnormal.
- Never use a battery to clean or attempt to remove battery as that could cause leakage or short circuiting of other electrolytic substances.
- Avoid charging a rechargeable battery when the temperature is not within 5° - 35° C (41° - 95° Fahrenheit).
- Never use a battery to light a cigarette.
- Never expose a battery to excessive heat such as direct sunlight or fire. Never use a battery pack in an unventilated container.
- Always keep batteries out of the reach of infants and small children.

**IMPORTANT SAFETY INSTRUCTIONS**

Please heed all warnings, read and follow all instructions and keep these instructions handy for future reference.

1. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
2. Do not use this product near water. Do not use this product near radiators, heat registers, stoves or other appliances (including amplifiers) that produce heat.
3. This product is not to be used for purposes not specified by the manufacturer.
4. Plug this product during lightning storms or when unused for long periods of time.
5. Do not touch the product when the power cord is plugged into a power outlet. Call service personnel when:
- A plug has been damaged.
- A cord has fallen into or liquid has been spilled into the enclosure.
- The unit has been dropped or the enclosure damaged.
- A warning or marking changes in performance or the unit does not operate normally.
6. No naked flame sources, such as lit candles, should be placed on this product.
7. Attention should be drawn to the environmental aspects of battery disposal.
8. This product is suitable for use in tropical and/or humid climates.
9. Do not dispose of batteries in the household trash or fire.
10. Do not use a battery for more than 12 months after the month or charge the unit fully before storage.
11. Always use a UL/ETL certified charging adapter (not included), and the supplied USB charging cable.
