RE: Vocollect, Inc.

FCC ID: MQOTT700-10000

After a review of the submitted information, I have a few comments on the above referenced Application.

1) The updated users manual provided mentions 3 different battery types, 2 for one model, 1 for the other. However it is uncertain which model is actually covered by this application. The FCC expects each type of battery offered for the device to be tested. The SAR report supports only 1 battery. Please review/correct as necessary.

Response:

There is only one battery for use with the T5 model (the subject of this certification). The user's manual has been revised to clarify this. Please see the revised user's manual uploaded with this response.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued. Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the sender.
