

A collection of items laid out on a blue surface. On the left, a black RC car with four large, treaded wheels is positioned vertically. To its right, a blue plastic water bottle lies horizontally. Below the bottle is a clear syringe. Further right is a small black electronic device. Below that are two white cables and a black cable. To the right of these is a black battery pack. Below the battery pack are three small black components and a clear plastic container. At the bottom right is a white card. Two rulers are placed horizontally at the top and bottom of the items for scale.

A black Logitech GameCube controller is shown against a blue background. A ruler is placed vertically on the left side of the controller, indicating its size. The controller features two analog sticks, a central button, and two sets of four directional buttons. The Logitech logo is visible on the top center.
