12. Low battery alert

When the battery of bluetooth headset is low, play the warning sound of low battery at an interval of 30 seconds until the headset is low battery and turns off.

pairing method

1. Take out from the charging warehouse or press the left and right earphone multifunction button for 3 seconds to start up the headset until the red and blue lights flicker alternately, enter the state of search and pairing for the ear, enter the state of automatic pairing for the ear. After the pairing is successful, the red and blue lights of the main ear (right ear) continue to flicker alternately, while the blue lights of the secondary ear slowly flash, and play the prompt sound of successful pairing for the ear.

2. 2. Start the bluetooth function of mobile phone or other devices. If it is an android phone or device, please click the [search Bluetooth device] option. When the model of the bluetooth headset is found, click to enter pairing. After the pairing is successful, the main (right) ear will send out a signal that the connection is successful, and the indicator lights of the left and right earphones will turn to blue light and enter the standby state of connection. After the pairing is successful, the main ear will be the right channel, and the secondary ear will be the left channel.

3. The two earphones can also be paired with the mobile phone independently. The same operation method can be operated according to the operation method in step 2 above.

Charging operation

Plug the Micro USB charging cable into the charging bin and the Charger at one end. The Charger uses a standard 5V 1A charger to charge the bin.

2.Charging the headphones: the headphones can be automatically charged into the charging bin, charging the headphone indicator light will be lit, full of electricity after the extinguishment.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
