Hi Helen,

Thanks for your prompt review.
We contacted JQA and obtained the attached corrected test report for
applications: APYDMR0165.

Best regards,

Steve Petruska
Sharp Electronics Corp.

Hello Steve,

Please ask JQA to answer the following question:

Question #1: Please correct two errors in the test report:

- a) Page 25 - The formula to calculate RF output power $[(4.2 \times 1000 \times (t2-t1) / 46.7)]$ is incorrect.
please correct.
- b) Page 31 & 32 - The radiated emission limits listed here are for
APYDMR0164, not for APYDMR0165.
Please correct.

Thank you,
Helen
