

Your phone and **Ready For Wireless 4K Adapter** work with **Ready For**, a new platform that extends your phone's experience to any compatible TV or monitor:

- Mobile gaming on the big screen,
- Video calls larger than life and with better quality,
- A larger, uncluttered workspace.

To learn more, scan the QR code.

Connect and use Ready For Wireless 4K Adapter

When connected, the **Ready For Wireless 4K Adapter** displays a QR code on the TV/monitor.

Tip: Set your TV/monitor HDMI source/input to the port that is connected to your adapter.

Scan the QR code using your Motorola smartphone's Camera app.

Your **Ready For Wireless 4K Adapter** and phone connect wirelessly.

Note: On your phone, you can also swipe the status bar down, and then tap **Ready For > Display > Ready For Wireless 4K Adapter** to connect wirelessly.

Select **Mobile desktop, TV, Game** or **Video chat** on your phone to get started.

Federal Communications Commission (FCC) Compliance Statement for USA

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: THE GRANTEE IS NOT RESPONSIBLE FOR ANY CHANGES OR MODIFICATIONS NOT EXPRESSLY APPROVED BY THE PARTY RESPONSIBLE FOR COMPLIANCE. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

RF exposure warning

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be collocated or operating in conjunction with any other antenna or transmitter.
