Solder Board-Component View 2	 A photograph showing a small green electronic component (E324220 JS) mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is labeled with "E324220 JS", "T-1 5V 94V-0A", and "H7145-T-1-V1.1 2023/06/02".
Solder Board-Component View 3	 A photograph showing a white electronic component (H7145-ED-V1.0) mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is labeled with "H7145-ED-V1.0", "2023/03/30", and "C 2 75".

Solder Board-Component View 10	 A photograph of a small green printed circuit board (PCB) component, likely a solder bridge or a small connector, positioned on a blue textured surface. The component is L-shaped, with a vertical section and a horizontal section. It is placed next to a black L-shaped ruler for scale. The ruler has white markings in millimeters, with the horizontal scale ranging from 0 to 100 mm and the vertical scale ranging from 0 to 90 mm. The component is located approximately at the 20 mm mark on the horizontal scale and the 20 mm mark on the vertical scale.
Solder Board-Component View 10	 A photograph of the same green PCB component from a different perspective, showing its top surface. The component is L-shaped, with a vertical section and a horizontal section. It is placed next to a black L-shaped ruler for scale. The ruler has white markings in millimeters, with the horizontal scale ranging from 0 to 100 mm and the vertical scale ranging from 0 to 90 mm. The component is located approximately at the 20 mm mark on the horizontal scale and the 20 mm mark on the vertical scale. The component has some text printed on it, including "WALTEK" and "WTX23X05107892W001/002".

Solder Board-Component View 10	 A photograph of a small green printed circuit board (PCB) component, labeled 'HB-LP500', mounted on a blue textured surface. The component is connected to a black cable that ends in a black connector. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). A vertical ruler is also visible on the left side of the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 10	 A photograph of the same green PCB component, labeled 'HB-LP500', mounted on a blue textured surface. The component is connected to a black cable that ends in a black connector. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). A vertical ruler is also visible on the left side of the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
