NETGEAR®

Quick Start

NIGHTHAWK® Tri-Band AX12
12-Stream AX WiFi Router
Model RAX200

Download the Nighthawk app to get started

The Nighthawk app guides you through the installation.

To download the app, visit [Nighthawk-app.com](https://nighthawk-app.com).

Package contents

Router WiFi network name and password

A sticker on your router displays the preset WiFi network name, password, and QR code.

Rear panel

- 1 LED On/Off switch
 - 2 Reset button
 - 3 USB ports 1 and 2
 - 4 Internet port
 - 5 Ethernet ports 1-4
Note: Ethernet port 1 can be used to provide Multi-Gig Internet. Ethernet ports 3 and 4 can be used to set up Ethernet port aggregation.
 - 6 Multi-Gig Ethernet port 5
 - 7 Power On/Off button
 - 8 DC power connector
- Note:** The Internet port (along with the Ethernet port 1) can be used to provide Multi-Gig Internet.

Do more with the Nighthawk app

Now that your Nighthawk WiFi is set up, here are some more things you can do with the app:

-  View a list of devices that are connected to your network.
-  Change your WiFi network name and password.
-  Test your router's Internet connection speeds.

Federal Communication Commission Interference Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

For operation within 5.15 ~ 5.25GHz / 5.47 ~5.725GHz frequency range, it is restricted to indoor environment. This device meets all the other requirements specified in Part 15E, Section 15.407 of the FCC Rules.

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 37cm between the radiator & your body.
