

The technical drawing illustrates the rear panel of the Audio-Technica AT-MP09 microphone stand. Key dimensions include a total height of 482mm, a main body width of 275.5mm, and a depth of 44mm. The rear panel is equipped with two identical input/output sections. Each section contains a 'RECEIVED' input with an 'ANT IN' jack and an 'ATTEN' switch, followed by a 'BALANCED PC OUTPUT' XLR connector. Below these are two 'BALANCED PC INPUT' XLR connectors. A power switch is positioned at the bottom right of the rear panel. An FCC ID label is shown on the left side of the drawing.
