We aim to combine the practicality and creativity to provide consumers with high-quality, modern, fashionable and creative digital products. Please feel free to contact us by sending your precious advices to pk9990@163.com if you have any ideas for creating better products.</p>	<p>Packing Content</p>  <p>M11 Speaker User Manual Micro-USB Charging Cord Carabiner</p>	<p>Product Overview</p>  <p>Power/Bluetooth/Play/Pause Volume Up/Previous track Volume Down/Next track Micro-USB port LED light</p>	<p>Status and Notifications</p> <p>Power on/off: Long press "M" button on the back of the speaker for 3s, you will hear a prompt tone. The light on the top of the speaker flashes after the prompt tone ends. Please operate as the steps below:</p> <p>Step 1: Turn on the speaker and you will see the white light is keep lighting which means the speakers are on and ready to work.</p> <p>Charging: While being charging, there is a red light on on the back of the speaker (next to the AUX input). When fully charged, the red light will go off and the white light will keep flashing, which also means the speaker is on.</p> <p>Power Display: Please connect the speaker to your device, then swipe down the screen and you will see M11's power display is related to your device's battery status.</p> <p>5 Playback Modes and Operations:</p> <p>1. Bluetooth Mode: Turn on the speaker, or, if the no prompt tone and the white light flashes, then connect the speaker to your device via the one chosen. M11 will connect the white light by itself if you connect it via USB cable. If you connect it via AUX cable, please long press "M" button for 3s.</p> <p>2. AUX Input Mode: Turn on the speaker and connect the speaker to your device via the AUX cable. Then connect the speaker to your device via the one chosen. M11 will connect the white light by itself if you connect it via USB cable. If you connect it via AUX cable, please long press "M" button for 3s.</p> <p>3. TF Card: Support up to 32GB TF card. You can insert a memory card into the slot and then turn on the speaker. The white light will keep lighting when the file has been detected successfully.</p>	<p>How to use TWS function?</p> <p>Situation 1: If you want to pair the two M11 speakers in a TWS mode, please follow the steps below:</p> <p>Step 1: Turn on both the speakers and you will see the white light is keep lighting which means the speakers are on and ready to work.</p> <p>Step 2: Repeat "step 2 and step 3" of Situation 1 and you can enjoy the music! If you want to turn them off, then only turn off the charging base which is up to now. If you turn the battery on again by the steps mentioned above.</p> <p>How to unpair between two speakers? click the "M" button 2 times quickly, or one of them, then you can click the "M" button again to stop.</p> <p>Power Display: Please connect the speaker to your device, then swipe down the screen and you will see M11's power display is related to your device's battery status.</p> <p>Auto-Reconnection Function It is very convenient to connect the speaker to your device automatically by connecting the two devices. So you just need to turn on the speaker and the speaker will automatically connect to the device.</p> <p>Situation 2: Both or both of them have paired with your device, then you need to unpair them with this device from you. See TWS function.</p> <p>Specifications</p> <ul style="list-style-type: none"> Bluetooth version: 5.0 Output capacity: 10W*2ch Charging voltage: DC 5V~1A Micro-USB output: DC 5V~1A Frequency response: 10Hz~20KHz Speaker size: 2.0 Distortion: <1% Input volume: 100dB Sampling rate: 100KHz Weight: 0.8kg 	<p>Troubleshooting</p> <p>1. FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
