To Whom It May Concern,

The chip RTL8762CMF installed in our product Electronic Blood Pressure Monitor (model name: YE630CR,FCC ID:2A2JJYE630CR), which supports BT and BLE 1M&2M . But for the product, it only activates BLE 1M&2M, the other functions have been shielded though software and the end user cannot activate.

Please contact me if there is need for any additional clarification or information. Best Regards,

Sincerely Yours,
