

英文/English

MINI wireless smart earphones

User manual

configuration parameter

Pairing name: MIN

Chip version: 5.4

Charging interface: type-c

Charging time: approximately 1-2H

Product Introduction

1. Charging case * 1 2. Left and right earphones * 1 3. Small earbuds * 1 pair
4. Data cable * 1 5. Product manual * 1

Binaural pairing connection

Step 1: Delete the information connected to the phone, and then turn off the wireless connection on the phone.

Step 2: Return the machine to the charging compartment and wait for 30 seconds.

Step 3: Take out the headphones and wear them on your ears.

Step 4: TWS automatically enters pairing mode, automatically matches, the main ear flashes alternately, and the auxiliary ear light goes out.

Step 5: Open the wireless connection on your phone.

PS: After the binaural pairing is completed, only one earphone flashes again to indicate successful binaural pairing. If both earphones flash it means that the ears have not been paired successfully.

Switching between Chinese and English

When the earphones are not connected to the phone, three clicks on one of the earphone function keys allow for free switching between Chinese and English.

Operating mode

1. Power on

- (1) Open the charging case, take out the earphones and immediately turn them on automatically, with a voice prompt of "power on" and the light on for 1 second.
- (2) When the earphones are turned off, press and hold the function button for 3 seconds, and the voice prompt will "turn on" and the light will be on for 1 second.

2. Shutdown

- (1) Open the charging case, take out the earphones and immediately turn them on automatically, with a voice prompt of "turn off" and the light on for 1 second.
- (2) When the earphones are turned off, press and hold the function button for 6 seconds, and the voice prompt will "turn off" and the light will be on for 1 second.

3. Clear pairing

When the earphones are turned on but not connected to any device, simply tap one of the earphone function keys four times to pair them clearly

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.
