Hi Mike,

Here are the answers.

1. Based on user manual, this PDA has optional extended battery. Though the additional battery is noted on the report, yet there has no information on which battery was used during final Sar evaluation and RF test. So please clarify and provide the test data to approve the additional battery can comply with SAR and RF test.

<answer>pls see revised SAR report package.

2. RF exposure warning statement does not include collocated transmitting restriction. Suggest text can be " This PDA has been tested and demonstrated compliance when Bluetooth and WLAN are transmitting simultaneously. This PDA must not be co-located or operating in conjunction with any other antenna or transmitter."

<answer>pls see revised user's manual.
