Request for Tech. Info.: 6/24/02

Dear Linda:

Transmitted herewith, on behalf of **Symbol Technologies Inc.** is an amendment provided in response to the request for technical information dated June 24, 2002.

1. Symbol Technologies Inc., will like to confirm that there are no changes to the module transmitter, the module was placed in the terminal, per Rich Fabina a Class II permissive change was filed to verify SAR, Spurious Emissions and EIRP. The EUT External photos show the terminal the radio module was integrated into. The internal photos show the PCMCIA radio card connected to the main board.

We trust this information is sufficient to resolve FCC questions in this application. If you have any further questions, please do not hesitate to contact us.
