17 Lor 8 Toa Payoh Singapore 319254  
Tel: 6357 0753/4
- Ubi (Autolution Industrial Pte Ltd)  
19 Ubi Road 4 Singapore 408623  
Tel: 6490 9666
- Jurong (TC Autoclinic Pte Ltd)  
No 1 Sixth Lok Yang Road Singapore 628099  
Tel: 6262 2212
- Leng Kee service centre  
25 Leng Kee Road Singapore 159097  
Tel: 6703 8511/2/3

Please bring a copy of the LTA vehicle registration document to the service centre.

## Important Note

Please do not update the map from the internet as it is incompatible with our head units.

**Caution:**

Do not connect any damaged USB cable or device to this head unit.

**Warranty:**

Warranty covers only the manufacturing defects of the head unit and is 24 months from the date of car registration. All parts and service will be charged after the 24 months expiry.

Warranty will be void if there is any misuse of this product or tampering of wiring or modification or third party's device connection to this head unit. All parts and services will be charged accordingly in order to restore the operation of this head unit due to tampering of wiring or modification.

Warranty does not cover damage caused by water or any other liquids seeping into the head unit.

All features and printed materials are under the copyright of Elegant Auto Solutions Pte. Ltd.

### ***FCC Notice***

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
