**Subject: FCC Single-Modular Approval Letter**

FCC ID: HD5-SFPMB

To whom it may concern

We, Honeywell hereby declare that the product, FCC ID: HD5-SFPMB, has met the single-modular approval requirements of FCC rule part §15.212(a)(1) and this is shown in the table below.

<b>Requirement</b>	<b>Compliance: Yes or No along with a justification</b>
The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	Yes. This is shown in the Internal Photos exhibit
The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	Yes. This is detailed in the Operational Description exhibit
The module must contain power supply regulation on the module	Yes. This is detailed in the Operational Description exhibit
The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	Yes. This is detailed in the Operational Description, Installation Guide and the Internal Photos exhibits.
The module must demonstrate compliance in a stand-alone configuration	Yes. This is detailed in the Test Set-Up Photos exhibit.
The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	Yes. This is detailed in the Labelling exhibit.

The module must comply with all specific rules applicable to the transmitter including all the conditions provided in the integration instructions by the grantee	Yes. The details are provide in the Users' Manual exhibit (Installation Guide)
The module must comply with RF exposure requirements	Yes. The details are provided in the RF Exposure exhibit.

NOTE: This wireless module will only be incorporated into Honeywell products.

Sincerely,

Michael Robinson
