

# Loop System

**Figure 1: Loop system 1** – full assembly for safety test. Tx coil inside an aluminum extrusion.

**Figure 2: Loop system 2** – antenna assembly (120x244cm small loop) for emission tests. For H field test 200x244x60cm fig.8 loop was used..

**Figure 3: Loop system 3 – example of assembly on metal door.**
