

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the disassembled components of an Electronic Under Test (EUT). The components include a white plastic housing, a black printed circuit board (PCB) with various electronic components, and a small black component. The components are laid out on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm).
Solder Board-Component View 1	 A close-up photograph of a solder board-component. The component is a small black PCB with various electronic components, including a microcontroller, capacitors, and a connector. The component is placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm).

Solder Board-Component View 2	 A photograph of a small, rectangular black PCB component with two circular orange solder pads on its top surface. The component is placed on a blue textured background. A black ruler with white markings is positioned below the component, showing measurements in millimeters. The ruler has markings for 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100 mm. The component is located between the 10 mm and 20 mm marks.
Solder Board-Component View 3	 A photograph of a larger, irregularly shaped black PCB component with a large circular cutout in the center. The component has several small circular solder pads and a gold-colored connector on its bottom edge. It is placed on a blue textured background. A black ruler with white markings is positioned below the component, showing measurements in millimeters. The ruler has markings for 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100 mm. The component is located between the 10 mm and 20 mm marks.

Solder Board-Component View 4	 A photograph of a small, black, irregularly shaped printed circuit board (PCB) component. The component has a central circular cutout and several small, rectangular components soldered onto its surface. It is placed on a blue textured background next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 60 mm marks.
Solder Board-Component View 5	 A photograph of a larger, black, irregularly shaped printed circuit board (PCB) component. The component features a central square cutout, a green microcontroller unit (MCU) soldered onto the left side, and various other electronic components. It is placed on a blue textured background next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 70 mm marks.
