REF: Attestation to the Inherent Compliance of 2AC7Z-ESP32WROOM32E

Totem Inc (FRN 0036349215) hereby attests that the module with FCC ID
2AC7Z-ESP32WROOM32E which is under consideration for a change in ID to
2BMQS-ESP32WROOM32E is inherently compliant with the Covered List against Kaspersky
software due to its limited memory (4MB) and max clock speed (240MHz) since according to
their documentation, Kaspersky software requires much greater storage capacity (1.5GB) and
clock speed (1GHz).
