### PLEASE PAY ATTENTION BEFORE USE

- First thing you should do after receiving the product is to fully charge it. It not only protects the product chip and battery, but also ensures the best first use effect.
- Pair the transmitter and receiver first before plugging them into your devices. If there is a problem with pairing, turn off the power and restart it.
- When using wireless transeivers, try not to use other devices with wireless interference. Wireless transmission only transmits the sound and can not change or amplifies the sound. You can adjust the volume of your guitar or amplifier.
- Please do not use it beyond 100 feet.
- Wireless transmission can not go through the wall, so please do not use it through the wall.
- After 3-4 hours of continuous use, please connect the charger for next use.
- Please use a 5V charger to charge it, otherwise the chip will be damaged.
- When the battery is about to run out, it may not work properly such as transmission problems.

### Product Specifications

Product Name	T8 Wireless Microphone
Case	ABS Environmentally Friendly Material
Color	Black
Transmission Frequency	2.4G
Frequency Bandwidth	20Hz-20kHz
Transmission Delay	Less Than 4ms
Battery Capacity	300mAh
Voltage	5V
Charging Port	Type-C
Charging Time	1.5 hours
Battery Life	3-4 hours
Transmission Distance	100 feet
Product Size (L*W*H)	2.05*1.69*0.98inches
Product Weight	0.72oz

(Tips: Manual measurement, there may be deviations.)

### After-Sales

- If the product cannot be used, please apply for a replacement or full refund. And we will take care of it asap. The customer is always #1 for us.
- If you have any question, please feel free to talk to us and give us feedback. This way we can make every effort to understand your issue. Thank you for your support.

*May your work go well and all your family be happy!*

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### FCC Radiation Exposure statement

The device has been evaluatec to meel general RF exposure requirement. The device can be used in porlable exposure condition without restriction.
