Read Me First

Please read this important safety information before you use this device. It contains general safety information for devices and may include content that does not apply to your device. Follow the warning and caution information to prevent injury to yourself or others and to prevent damage to your devices.

The term "device" refers to the wrangler Mass Charging Cradle and walt Smart Radio, the items supplied with the product, and any weavix -approved accessories used with the product.

This section describes the basic handling precautions of the wrangler mass charging cradle.

Safety Symbols Used in This Manual

Within this manual, you will notice the use of symbols e.g., **Warning**, **Caution**, and **Notice**.

These symbol representations are used to call attention to safety hazards that exist and care must be taken or observed.

The term "device" refers to walt and wrangler and the items supplied with the products, and any weavix-approved accessories used with the product.

These notations are used to emphasize that safety hazards exist, and the care that must be taken or observed.

WARNING: Indicates a potentially hazardous situation, procedure, practice, or condition, that if not avoided could result in death or injury.

CAUTION: Indicates a potentially hazardous situation, procedure, practice, or condition, that if not avoided could result in minor or moderate injury and may result in damage to the equipment

NOTE: Information to call extra emphasis to, this may be operation procedure, practice, or a condition

Warning: Failure to comply with safety warnings and regulations can cause serious injury or death

Always comply with regulations, instructions, and signs during all operations, including in potentially explosive environments. Your employer may have specific restrictions relating to use of mobile communication devices which you must follow.

- Do not use damaged power cords or plugs, or loose electrical sockets.
- Do not touch the device, power cords, plugs, or the electric socket with wet hands or other wet bodyparts.
- Do not cut, splice, or attempt to repair any of the wrangler electrical plugs or power cords.
- Do not pull power cord excessively when disconnecting it.
- Use only walt in the wrangler mass charging cradle. Any incompatible device in the wrangler mass charging cradle can cause serious injuries or damage to your device.
- Do not use the device with wet hands while the device is charging.
- Do not store wrangler near or inside heaters, microwaves, hot cooking equipment, explosive environments, near flammable material, or high pressure containers.
- Do not store wrangler in outdoor weather conditions.
- Only use the wrangler mass charging cradle in a well ventilated locations.

- Do not disassemble the wrangler mass charging cradle. Disassembling the charger may result in the risk of electric shock or fire.
- Do not touch the charging pins while wrangler is plugged into an electrical circuit.
- Do not exceed the electrical circuit break when plugging in multiple wrangler craddles into an electrical outlet.
- If you notice strange smells or sounds coming from your device while charging, or if you see smoke or liquids leaking from the device battery, stop using the device immediately and send it to a weavix authorized service center.
- To reduce the risk of fire, electric shock, or injury, do not operate the charger if it has been broken or damaged in any way, stop using the device immediately and send it to a weavix authorized service center.
- Use of accessories not approved by PK Solutions LLC may result in the risk of fire, electric shock, or injury.
- Comply with all safety warnings and regulations regarding mobile device usage and charging while operating a vehicle.

WARNING: Any changes or modifications to your device can void your manufacturer's warranty. If your device needs servicing, take your device to a weavix service center

About This Manual

Before using the wrangler mass charging cradle for the first time please read the user's manual carefully to ensure safe and proper use. This user manual content description is based on the default settings. All figures and icons in this manual are for user reference only and may differ from the final product depending on the version upgrade.

Certification Marks

Supplier's Declarations of Conformity
Per FCC CFR Title 47 Part 15

Responsible Party

Name: PK Solutions LLC.

Address: 10811 E. Harry St, Wichita, KS 67207

Phone Number: +1 316-844-5144

Hereby declare that the product:

Model Name: wrangler

Conforms to the following regulation:

FCC Part 47 CFR Part 15, Subpart B ANSI C63.4:2014 15.107 (a); Class B and ANSI C63.4:2014 15.109(a); Class B

Class B Digital Device: As a personal computer peripheral, this device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions:

- 1. This device may not cause harmful interference. This device must accept any interference received, including interference that may cause undersired operation.
- 2. Changes or modifications made to this device that are not expressly approved by PK Solutions, could void the authority of the user to operate this equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the reciving antenna.
- Increase the seperation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the reciever is connected.
- Consult the dealer or an experienced radio/TV technician for help.

European Union (EU) Waste of Electrical and Electronic Equipment (WEEE) directive.

 The European Union's WEEE directive requires that products sold into EU countries must have the crossed-out trash bin label on the product (or the package in some cases).

As defined by the WEEE directive, this crosses-out trash bin label means that customers and end-users in EU countries should not dispose of electronic and electrical equipment or accessories in household waste.

Customers or end-users in EU countries should contact their local equipment supplier representative or service center for information about the waste collection system in their country.

 This product has been tested by a certified laboratory and meets electromagnetic and electric safety standards in the European Union.

 **NOTE:** Before using the wrangler mass charging cradle for the first time please read the user's manual carefully to ensure safe and proper use. This user manual content description is based on the default settings. All figures and icons in this manual are for user reference only and may differ from the final product depending on the version upgrade.

wrangler Overview

What comes in the box

All contents of the weavix box and items are present as described.

Label	Name	Description
1	wrangler	Mass Charging Cradle
2	Power Cord	(110-240v) Power Cord
3	Power Supply Block	(INPUT): 100-240V-50/60Hz 1.5A Max OUTPUT: 20.0V  3.0A 60.0W

wrangler Operational Safety Guidelines

- This equipment is not suitable for outdoor use. Use only in dry locations and conditions.
- Maximum ambient temperature around the charger must not exceed 40°C (104 °F).
- walt can be on or off while charging.
- Connect the charger only to the approved power cord listed.
- Make sure the power cord is located where it will not be stepped on, tripped over, or subjected to water, damage or stress.
- Connect the power cord only to an appropriately fused and wired AC outlet with the correct voltage as specified on the product. The power supply block has a green indicator light on it.
- Disconnect from line voltage by removing the power cord from the AC outlet.
- The equipment shall be connected to a nearby and easily accessible socket outlet.
- All standard safety precautions regarding the operation of electrical devices must be followed. In no circumstance should the charging of walt or using the wrangler mass charging unit be done in a way that would exceed the electrical circuit and circuit breaking safety mechanisms.

Using wrangler

wrangler is specifically designed as a mass charging cradle for walt. Each unit is designed to charge up to five walt at any given time. Follow the simple steps for setting up and using wrangler.

1. Take wrangler out of the box and set it up in a clean and dry indoor environment.
2. Plug the **power cord** (ref. 2) into the **power supply block** (ref. 3).
3. Plug the power supply block cord (ref. 3) into wrangler (wrangler is now set up and ready to charge 1 or 5 walt Smart Radios at a time). Each mass charging cradle pocket is equipped with a tag that once the walt is set in the charging cradle, it will identify its charging location within the wrangler.

For using multiple wrangler together. Each wrangler is equipped with locking magnets on the sides and ends to "snap" together. This allows for better organizing on shelves or desks.

wrangler Charging walt

1. To charge a walt Smart Radio simply set the walt in any of the 5 cradle pockets and it will begin charging.
2. Once walt is in the charging pocket, walt will automatically go into charging mode. On the top right corner, you will see a Red Light slowly change to Green as walt is charging up.
