# CHARGING YOUR SPEAKER

Before your first use, or when the battery power is depleted, recharge the speaker with the USB charging cable included in the package.

Plug the Micro USB pin into the charging port on the back of the speaker, and the other end of the cable (the standard USB 2.0) plug into the USB port of a computer, or use a USB adapter (not included) to plug the USB charger into a wall outlet.

The LED indicator light will turn red when it is being charged. When it is fully charged, the LED indicator light will go off. Full charge duration is approximatel 2-2.5 hours.

The speaker can be charged while in use. The battery of the speaker will be charged until the charging process completes. The speaker will then be powe by the DC input directly and the battery will be in sleep mode after it is fully charged; thus saving the battery power for when the device is unplugged.

## PAIRING YOUR DEVICE

Speaker off)

2. Upon powering on, the speaker automatically goes into bluetooth mode and pairing mode, and the LED indicator light will be blinking in red and blue to indicate Pairing Mode'.

3. Select Enable Bluetooth on your Bluetooth device. Bluetooth connectivity and make sure your device is "visible" or "discoverable".

4. Choose "add new Bluetooth device" or "setup Bluetooth device" on your device. It will search for the AquaAudio. This will connect your speaker to your Bluetooth device discovers possible items to connect to, it will list their names. Select the device named AquaAudio. This will connect your speaker to your Bluetooth device. There will be a voice prompt "connected" to indicate the Bluetooth has connected successfully.

6. If you want to connect with another Bluetooth device, press and hold the Play/Pause button, the speaker will be disconnected from the previous device and then you can repeat the paring process again

7. If asked for a password, please enter "0000".

8. Once connected, you can select on your device to play music and answer calls and it will be heard on the AquaAudio speaker.

WATER RESISTANT FEATURES

## WATER RESISTANT FEATURES

The AquaAudio speaker is water resistant. It is resistant to rain, water jets and water splashing, etc. so it can be used in the shower, outside on a rainy day, by the swimming pool, on a boat and on the beach. However, DO NOT insert the speaker into water. 2 PLEASE NOTE – Before using the AquaAudio speaker in a wet environment, make sure to remove the cable connections. Failure to remove the cable connection may result in water leaking into the speaker and cause irreparable damage.

## USING SUCTION CUP

The AquaAudio speaker can be affixed to glass, tiles, and most other

Make sure both surfaces are dry and clean.

Press the speaker softly to the surface to force out the air in the suction

To remove the speaker from the wall, hold the speaker, and use your finger nail to let in some air into the suction cup, then lift the speaker to take it off from the wall/object.

## CONTROLLING YOUR MUSIC

Once the AquaAudio speaker is connected to your device (mobile phone, tablet, PC, laptop etc.), you are free to control your music any way you want directly from the speaker.

Press the Volume UP and Volume DOWN button to increase or decrease the volume. The speaker will prompt a tone to indicate that the speaker is at its maximum or minimum volume. Pressing the Volume UP and DOWN buttons only increases or decreases the volume of the speaker, but it does not increase or decrease the volume of your Bluetooth device. The Volume can also be adjusted from your Bluetooth device (sound source).

To switch to the previous or next track, simply press the Previous or Next button on the speaker. This will switch to the previous/next track in the playlist of the Bluetooth device.

 $\label{presspace} {\sf Press\ the\ Play/Pause\ button\ on\ the\ speaker\ to\ start\ or\ pause\ songs}.$ 

### ANSWERING CALLS

You can use the speaker as a portable speakerphone for incoming calls when connected wirelessly via Bluetooth. The built-in microphone will pick up your voice.

To answer a call, press the TALK button and speak and listen directly

on the speaker.
To end a call, press the TALK button again.
To refuse a call, press and hold the Talk button.
To redial the last number called, double press the TALK button.

#### USING SIRI

When the speaker is connected to an iPhone/iPad via Bluetooth, press and hold the TALK button for 3 seconds to activate the Siri function on the iPhone/iPad. Then talk to the speaker after hearing the "Siri" sound.

Please note that your iPhone/iPad may not be able to recognize your voice when the speaker is being used in a noisy environment. Siri may not work if the iPhone/iPad is not connected to the internet.

### BATTERY STATUS ON IPHONE AND IPAD

When the speaker is connected to an iPhone/iPad via Bluetooth, the battery status of the speaker will be displayed on the top of the iPhone/iPad screen; it will be displayed next to the Bluetooth symbol.

Please note that the battery status icon can be vertical or horizontal, depending on the Bluetooth device and its operation system.
