

User Manual

Since this module is not sold to general end users directly, there is no user manual of module.

This module should be installed in the host device according to the interface specification (installation procedure).

表記要件 / Marking on the product and and instruction in product manual

製品名 / Module name: BTCARD4

本モジュールは一般に直接販売せず、ヤマハブランドの機器にのみ搭載することを意図している
製品仕様の詳細はモジュールの技術仕様書を参照のこと

This module is not sold to general end users directly and is intended to be installed solely in Yamaha brand audio equipment.

For the details about this module, please refer to the Technical Specification sheet of module.

本体表示 / Marking on the final product

本モジュール BTCARD4を搭載した全ての最終製品は以下を表示すること

All final products equipped this module "BTCATD4" should be mark bellow

Contains FCC ID: A6RBT CARD4A

Contains IC: 740B-BTCARD4A

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

CAN ICES-003(B)

NMB-003(B)

DoCを適用する製品は以下を表示すること

The product apply DoC procedure should be mark bellow(CFR47 2.1074, 15.19(b))

検証を適用する製品はユニークなIDをつけなくてはならない(会社名、モデル名など)

そのIDはFCC IDと誤解されることがあってはならない

The product apply verification procedure should be mark unique ID(company name, model name, etc.)(CFR47 2.954)

That unique ID shall not be confused with FCC ID.

マニュアル表示 / Instruction in product manual

Products should be describe in manual bellow.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

FCC CAUTION

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that it deemed to comply without maximum permissive exposure evaluation (MPE). [※But it is desirable that it should be installed and operated keeping the radiator at least 20cm or more away from person's body.]

Cet équipement est conforme aux limites d'exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles des radioélectriques (RF) de la FCC lignes directrices d'exposition et d'exposition aux fréquences radioélectriques (RF) CNR-102 de l'IC. Cet équipement émet une énergie RF très faible qui est considérée conforme sans évaluation de l'exposition maximale autorisée. [※Cependant, il est souhaitable qu'il devrait être installé et utilisé en gardant une distance de 20 cm ou plus entre le dispositif rayonnant et le corps.]

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.
